5 JUNE 1958

MILITARY SPECIFICATION

CYLINDER, GASES AND LIQUIDS, ONE-TON, TYPE D

1. SCOPE

1.1 This specification covers a cylinder for use in the shipment of chemical agents, liquid and gas.

2. APPLICABLE DOCUMENTS

2.1 **Government documents.** The following documents of the issue in effect on the date of invitation for bids form a part of this specification to the extent specified herein:

STANDARDS

MILITARY

MIL-STD-129 — Marking for Shipment and Storage.

DRAWINGS

CHEMICAL CORPS

C6-10-8 — Cylinder, Gases and Liquids, One-Ton, Type D — Assembly and Bill of Material.

(Copies of specifications, standards, drawings, and publications required by suppliers in connection with specific procurement functions should be obtained from the procuring activity or as directed by the contracting officer.)

2.2 **Other publications.** The following document forms a part of this specification to the extent specified herein. Unless otherwise indicated, the issue in effect on date of invitation for bids shall apply.

INTERSTATE COMMERCE COMMISSION

49 CFR 71-90 — Interstate Commerce Commission Rules and Regulations for the Transportation of Explosives and Other Dangerous Articles.

(The Interstate Commerce Commission regulations are a part of the Code of Federal Regulations (Revised 1956) available from the Superintendent of Documents, Government Printing Office, Washington 25, D. C. Orders for the above publications should cite "49 CFR 71-90 (Rev. 1956).")

3. REQUIREMENTS

3.1 **Materials and components.**

3.1.1 *Materials.* All materials cited on Drawing C6-10-8 or on the subsidiary drawings shall conform to the specifications thereon, or the specific characteristics set forth on the drawings.

3.1.2 *Components.* All components of the item shall conform to the specifications and drawings listed on Drawing C6-10-8 and subsidiary drawings.

3.2 **Manufacture and assembly.** The cylinder shall be manufactured and assembled as specified on Drawing C6-10-8 and subsidiary drawings listed thereon, and in accordance with Specification 106A500-X of Interstate Commerce Commission regulations.

3.3 Cylinder. The cylinder shall conform to applicable requirements of Specification 106A500–X of Interstate Commerce Commission regulations when tested as specified in 4.3.

3.4 Interior preservation. When specified (see 6.1), cylinder interiors shall be preserved with preservatives and preservation procedures specified by the procuring agency.

3.5 Workmanship. The cylinder shall be free from any damage, defects, hydrous oil, rust, or other contamination.

4. QUALITY ASSURANCE PROVISIONS

4.1 The supplier is responsible for the performance of all inspection requirements as specified herein. Except as otherwise specified, the supplier may utilize his own or any other inspection facilities and services acceptable to the Government. Inspection records of the examination and tests shall be kept complete and available to the Government as specified in the contract or order. The Government reserves the right to perform any of the inspections set forth in the specification where such inspections are deemed necessary to assure supplies and services conform to prescribed requirements.

4.2 Inspection provisions.

4.2.1 *Materials and components.* The supplier shall present objective evidence as required by the Government representative that all materials and components are in accordance with 3.1.1 and 3.1.2.

4.2.2 *Sampling.* Each cylinder shall be inspected as specified in 4.2.3 and tested as specified in 4.3.

4.2.3 *Examination.* The cylinders shall be inspected for compliance with the drawings and this specification. The supplier shall provide for inspection and test reports as required by Specification 106A500–X of Interstate Commerce Commission regulations.

4.2.3.1 *Marking.* The marking shall be inspected for compliance with section 5.

4.3 Tests. The cylinder shall be tested in accordance with Specification 106A500–X of Interstate Commerce Commission regulations.

4.4 Acceptance/rejection criteria. If any cylinder fails to meet the requirements of this specification, the cylinder shall be rejected.

5. PREPARATION FOR DELIVERY

5.1 Marking. In addition to marking required by Interstate Commerce Commission regulations, Drawing C6–10–8, and any special marking required by the contract or order, all cylinders shall be marked in accordance with Standard MIL–STD–129.

6. NOTES

6.1 Ordering data. Procurement documents should specify the following:

(*a*) The title, number, and date of this specification.
(*b*) Type of valves and plugs required.
(*c*) Internal preservation, as required.

Notice. When Government drawings, specifications, or other data are used for any purpose other than in connection with a definitely related Government procurement operation, the United States Government thereby incurs no responsibility nor any obligation whatsoever; and the fact that the Government may have formulated, furnished, or in any way supplied the said drawings, specifications, or other data is not to be regarded by implication or otherwise as in any manner licensing the holder or any other person or corporation, or conveying any rights or permission to manufacture, use, or sell any patented invention that may in any way be related thereto.
