MIL-B-13207/4(ME)
12 August 1976

MILITARY SPECIFICATION SHEET

BODY, VAN, VEHICLE-MOUNTED,

ISO SIZE 40

This specification sheet is approved for use by the USA Mobility Equipment Research and Development Command, Department of the Army, and is available for use by all Departments and Agencies of the Department of Defense.

The complete requirements for procuring the ISO Size 40 van body described herein shall consist of this document and the latest issue of Specification MIL-B-13207.

REQUIREMENTS:

1. The van body shall be an ISO/ANSI Series 1, reefer freight container, designated 1A, having a nominal length of 12,000 mm (40 ft.).

2. The maximum gross weight of both basic van body and its operating equipment payload shall not exceed the ISO/ANSI maximum of 30 tonnes (SI units) (67,200 lb.).

3. The basic van body shall mount on any vehicle and be handled by any ISO materials handling equipment having ISO bayonet twist locks and that is compatible with ISO 1A, freight containers.

4. The van body shall be air transportable (see 3.9.1) in C-133, C-141, and C-5A aircraft. When necessary, the van body may be demounted from its vehicle component and air transported in two units.

5. The van body shall be equipped with 4 each combination air conditioner and heater units (see 3.10, Table II, (o) and 3.17).

Check the source to verify that this is the current version before use.

6. ISO Size 40, semitrailer mounted:

a. Semitrailer Payload Rating	Min. 40 tonnes (Ref. 67,200 lb.).
b. Semitrailer GVWR (TTMA RP No. 39)	Min. 40 tonnes plus semitrailer curb weight.
c. Overall Length (OAL)	Max., 540-in.
d. Suspension	Tridem (3-axle) type having a Min. 70,000 lb. rating.
e. Axles	3-ea. having Min. 69,000 lb. GAWR total tridem hub ratings.
f. Tires and Wheels Assys	Total, Min. 7 ea.
g. Running lamps	Total, Min. 11 ea.
h. Leveling Jacks	Total, Min. 6 ea.

7. ISO Size 40, truck mounted:
   At present, the ISO Size 40 van body is too long and could become too heavy for truck mounting on tilt cab straight trucks currently manufactured for on-off road operation.
