3. REQUIREMENTS

3.1 Description. Pans shall be as shown in figures 1 and 2 and specified herein.

3.2 Material. The pans shall be fabricated from zinc-coated carbon-steel conforming to QQ-S-775, type I, class d (see 6.3).

3.3 Type I pans. Type I pans shall be as shown in figure 1.

3.4 Type II pans. Type II pans shall be as shown in figure 2.

3.5 Workmanship. Metal used in fabrication shall be free from kinks and sharp bends. The straightening of material shall be done by methods that will not cause injury to the material. Corners shall be square and true. All bends shall be made with controlled means to insure uniformity of size and shape. External surfaces shall be free of burrs, sharp edges or corners except when corners are required.

4. QUALITY ASSURANCE PROVISIONS

4.1 Responsibility for inspection. Unless otherwise specified in the contract, the contractor is responsible for the performance of all inspection requirements as specified herein. Except as otherwise specified in the contract, the contractor may use his own or any other facilities suitable for the performance of the inspection requirements specified herein, unless disapproved by the Government. The Government reserves the right to perform any of the inspections set forth in the specification where such inspections are deemed necessary to assure supplies and services conform to prescribed requirements.

4.1.1 Material inspection. The contractor is responsible for insuring that materials used are manufactured and examined in accordance with referenced specifications and standards.
