MILITARY SPECIFICATION

REELS, HOSE AND CABLE

This specification is approved for use by the Mobility Equipment Research and Development Command, Department of the Army, and is available for use by all Departments and Agencies of the Department of Defense.

1. SCOPE

1.1 Scope. This specification covers two types of reels: hose reels and cable reels.

1.2 Classification. The reels shall be of the following types, as specified (see 6.2):

Type I - Water hose reel
Type II - Power cable reel

2. APPLICABLE DOCUMENTS

(None)

3. REQUIREMENTS

3.1 Description. The type I water hose reel shall be in accordance with figure 1 and as specified herein; the type II power cable reel shall be in accordance with figure 2 and as specified herein.

3.2 Material. Material shall be as specified herein. Materials not specified shall be selected by the contractor and shall be subject to all provisions of this specification (see 6.3).

Beneficial comments (recommendations, additions, deletions) and any pertinent data which may be of use in improving this document should be addressed to: US Army Mobility Equipment Research and Development Command, ATTN: DRDME-DS, Fort Belvoir, VA 22060 by using the self-addressed Standardization Document Improvement Proposal (DD Form 1426) appearing at the end of this document or by letter.

3.2.1 Steel pipe. Steel pipe shall be seamless, standard weight, black and plain ends.

3.2.2 Sheet steel. Steel sheet for reel drums and retainers shall be cold rolled commerical quality, finish optional.

3.2.3 Shaft ends. Shaft ends shall be cold rolled steel rod, one inch in diameter.

3.2.4 Washers. Steel washers shall be round, general assembly purpose, carbon steel, flat.

3.2.5 Machine screws. Machine screws shall be carbon steel, threaded to the head.

3.2.6. Nuts. Nuts shall be carbon steel.

3.3 Treatment and painting. The reels shall be cleaned, treated with a primer, and painted in a dark green color, such as olive drab.

3.4 Workmanship. The reels shall be free of rust, fins, burrs or other imperfection which may be harmful to the hose and cables.

4. QUALITY ASSURANCE PROVISIONS

4.1 Responsibility for inspection. Unless otherwise specified in the contract, the contractor is responsible for the performance of all inspection requirements as specified herein. Except as otherwise specified in the contract, the contractor may use his own or any other facilities suitable for the performance of the inspection requirements specified herein, unless disapproved by the Government. The Government reserves the right to perform any of the inspections set forth in the specification where such inspections are deemed necessary to assure supplies and services conform to prescribed requirements.

4.1.1 Material inspection. The contractor is responsible for insuring that materials used are manufactured and examined as specified herein.

4.2 Classification of inspection. The inspection requirements specified herein are classified as follows:

(a) Quality conformance inspection (see 4.3).
(b) Inspection of packaging (see 4.5).

4.3 Quality conformance inspection.

4.3.1 Examination. Each reel shall be examined for the defects specified in 4.4.1. Presence of one or more defects shall be cause for rejection.

4.4 Inspection procedures.

4.4.1 Examination. The reels shall be examined as specified herein for the following defects.

101. Reels not as shown in figures 1 and 2.
102. Materials not as specified.
103. Workmanship not as specified.
104. Treatment and painting not as specified.
105. Reels unable to rotate on the shaft ends.

4.5 Inspection of packaging. The packaging and marking shall be examined to determine compliance with the Section 5 requirements. Presence of one or more defects shall be cause for rejection.

5. PACKAGING. (see 6.4)

5.1 Packing. Each reel shall be individually packed in a close fitting fiberboard box, suitable for the size and weight, and acceptable by common carrier at lowest ratings. The reel shall be immobilized within the box by the use of fiberboard pads to prevent movement or damage to the reel and to prevent shaft ends from rupturing the box. Box closure shall be by the use of tape not less than 3-inches wide, or with staples.

5.2 Marking. Marking shall reflect as a minimum, the item name, national stock number, quantity, contract or purchase order number, and appropriate address markings on each shipping container.

6. NOTES

6.1 Intended use. Type I reels are for storing water hose on Topographic Reproduction Sets, Truck Mounted SC 3610-97-CL-E09 through E14, and 6675-97-CL-E45. Type II reels are for storing power cables on Topographic Reproduction Sets, Truck Mounted SC 3610-97-CL-E10, and 3610-97-CL-E12 through E14, SC 6675-97-CL-E35 through E40.

6.2 Ordering data. Procurement documents should specify the following:

(a) Title, number and date of this specification.
(b) Type of reel required (see 1.2).

6.3 Recycled material. It is encouraged that recycled material be used when practical, provided it meets the requirements of this specification.

STANDARDIZATION DOCUMENT IMPROVEMENT PROPOSAL

INSTRUCTIONS: This form is provided to solicit beneficial comments which may improve this document and enhance its use. DoD contractors, government activities, manufacturers, vendors, or other prospective users of the document are invited to submit comments to the government. Fold on lines on reverse side, staple in corner, and send to preparing activity. Attach any pertinent data which may be of use in improving this document. If there are additional papers, attach to form and place both in an envelope addressed to preparing activity. A response will be provided to the submitter, when name and address is provided, within 30 days indicating that the 1426 was received and when any appropriate action on it will be completed.

NOTE: This form shall not be used to submit requests for waivers, deviations or clarification of specification requirements on current contracts. Comments submitted on this form do not constitute or imply authorization to waive any portion of the referenced document(s) or to amend contractual requirements.
