MILITARY SPECIFICATION

NETWORK B: 10526468

This amendment forms a part of Military Specification MIL-N-60210(MU) dated 4 March 1965.

Delete paragraph 3.4.6.2 and substitute new paragraph 3.4.6.2.

"3.4.6.2 Selection and input diodes.- The selection and input diodes shall have a forward voltage drop more positive than -1.0 volt dc, with the following exceptions: The forward voltage drop of diodes CR4 and CR9 shall be more positive than -1.1 volt dc. The forward voltage drop of diodes CR2, CR3, CR6, CR7, CR8 and CR13 shall be more positive than -1.2 volt dc."

Paragraph 4.5.2.1.1.1: Delete and substitute:

"4.5.2.1.1.1 Forward voltage drop.- Connect pin 7B to the minus 6 volt supply voltage through a 680 ohm, 1/2 watt ± 5% resistor and ground pin 8B. The voltage measured from ground to pin 7B shall be less positive than plus 0.5 volt. No other voltage shall be connected during this test."

Paragraph 4.5.2.6.2: Delete the last sentence and substitute the following:

"The voltage measured at the pin specified in Column 2 of Table XV shall be as specified in Column 3 for compliance with 3.4.6.2."

Delete Table XV and substitute new Table XV.

"TABLE XV

1 Ground Pin	2 Measure Voltage at Pin	3 Voltage more positive than
