NOTICE.—When Government drawings, specifications, or other data are used for any purpose other than in connection with a definitely related Government procurement operation, the United States Government thereby incurs no responsibility, nor any obligation whatsoever; and the fact that the Government may have formulated, furnished, or in any way supplied the said drawings, specifications, or other data is not to be regarded by implication or otherwise as in any manner licensing the holder or any other person or corporation, or conveying any rights or permission to manufacture, use, or sell any patented invention that may in any way be related thereto.

NOTE.—This drawing was approved by joint action of the Air Force and Navy Department in the Air Force-Navy standardization program. It establishes a preferred standard drawing for the item covered. Its use is mandatory for all Air Force and Navy procurement of the item, except when a commercial item is specified. This drawing supersedes all previous standard drawings for the same product and shall become effective for the Air Force and Navy on the date of approval shown, or for use in new design, not later than six months after the latest date of approval shown.
