COMMERCIAL ITEM DESCRIPTION

SODIUM CHLORIDE, TECHNICAL (FOR ICE REMOVAL)

The General Services Administration has authorized the use of this commercial item description.

This commercial item description covers sodium chloride intended for use as a pavement deicer or in aggregate stabilization.

Salient characteristics:

Sodium chloride shall conform to ASTM D 632 - Standard Specification for Sodium Chloride-Type I.

The issue of ASTM D 632 in effect on the date of this solicitation shall be used to determine compliance with stated requirements.

Certification. The contractor shall certify that the product offered meets the salient characteristics of this description, and that the product conforms to the producer's own drawings, specifications, standards, and quality assurance practices, and is the same product sold in the commercial marketplace. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Packaging, packing, and marking. The items shall be packaged in accordance with normal commercial practice and packed to assure acceptance by common carrier and provide product protection against loss and damage during multiple shipments, handling, and storage. The shipping container shall be in compliance with National Motor Freight Classification and Uniform Freight Classification. Shipping containers shall be marked as specified in the contract or order.

ASTM D 632 is available from the American Society of Testing and Materials, 1916 Race Street, Philadelphia, PA 19103.
