COMMERCIAL ITEM DESCRIPTION

PAPER, WRAPPING, MEAT

The General Services Administration has authorized the use of this commercial item description.

This description covers meat wrapping paper, to be used in the wrapping of meat for delivery from commissaries or stores, and for short periods of refrigerated storage.

Salient characteristics:

The wrapping paper shall be made of processed wood fibers, containing no materials which are injurious to human health within the meaning of all provisions of the Federal Food, Drug, and Cosmetic Act.

The paper shall conform to the physical requirements listed in table I.

TABLE I.

Characteristic	Requirement	Test Method
Basis weight (24x36-500)	40 plus/minus 2 lbs	T 410
Bursting strength	Min. avg. 20.2 points	T 403
Tearing resistance	Min. 46 grams MD Min. 54 grams CD	T 414
Odor	No undesirable odor	T 483
Hydrogen ion Concentration	Not less than 4.5 and not more than 7.2	T 435

The issue of the TAPPI test methods in effect on the date of the solicitation shall be used to determine compliance with these requirements.

The color of the paper shall be the natural color of its components at the option of the supplier.

Rolls up to, and including 20 inch widths, ± 1/64 need not be wound on a fiber core, provided the ends are fitted with plugs. Roll widths 21 inches and over ± 1/64, shall be evenly and firmly wound on a fiber core having an inside diameter of 3 inches ± 1/8 inch.

The diameter of the finished roll of paper, shall be 9 inches, with tolerance of -1/8 inch, + 1/4 inch.

Workmanship. The paper shall be free from dirt spots, slits, scuff marks, cuts, wrinkles, holes, and soft spots across the face of the roll. The rolls shall have even, clean cut edges, and shall be free from lint and dust.

Regulatory materials. The manufacturer shall utilize recovered materials to the maximum extent practicable.

Certification. The contractor shall certify that the product offered meets the salient characteristics of this description, and that the product conforms to the producer's own drawings, specifications, standards and quality assurance practices, and is the same product sold in the commercial marketplace. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Check the source to verify that this is the current version before use.

Packaging, packing, and marking. The items shall be packaged in accordance with normal commercial practice and packed to assure acceptance by common carrier and provide product protection against loss and damage during multiple shipments, handling, and storage. The shipping container shall be in compliance with National Motor Freight Classification and Uniform Freight Classification. Shipping containers shall be marked as specified in the contract or order.

Note. Purchasers should specify width of rolls.

Copies of TAPPI test methods are available from the Technical Association of the Pulp and Paper Industry, One Dunwoody Park, Atlanta, GA 30341.
