COMMERCIAL ITEM DESCRIPTION

PAN, PUDDING, 3 QUART

THe General Services Administration has authorized the use of this commercial item description in lieu of Federal Specification RR-P-54.

This commercial item description covers 3-quart pudding pan for institutional and domestic use.

Salient characteristics:

Pans shall have the following nominal dimensions:

Top inside diameter - 9 7/8 inches.
Top outside diameter - 10 3/8 inches.
Inside depth - 3 1/4 inches.

Pans shall be formed seamless from a single piece of 0.020 inch thick aluminum.

Pans shall be approved by the National Sanitation Foundation.

Workmanship. Pans shall have no sharp edges, slivers, burrs, deep scratches, tool marks, or other defects which might affect serviceability, durability, or appearance.

Certification. The contractor shall certify that the product offered meets the salient characteristics of this description and that the product conforms to the producer's own drawings, specifications, standards and quality assurance practices, and is the same product offered for sale in the commercial marketplace. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Recovered materials. The manufacturer shall utilize recovered materials to the maximum extent practicable.

Packaging, packing, and marking. The pans shall be packaged in accordance with normal commercial practice and packed in fiberboard boxes that will assure acceptance by common carrier and provide product protection against loss and damage during multiple shipments, handling, and storage. The shipping container shall be in compliance with National Motor Freight Classification and Uniform Freight Classification. Shipping containers shall be marked as specified in the contract or order.
