MATERIAL: The stirring bars shall be made of polytetrafluoroethylene and permanent Alnico V magnets.

DESIGN: The stirring bars shall be round in cross section taken perpendicular to the longitudinal axis. The bars shall have removable spinning rings. The sizes shall be as specified in the table. The magnet shall be enclosed by the plastic to form a leakproof cover.

NOTE: 1. Items differing from this Military Standard by minor variations in design or dimensions are considered standard under this document, provided such variations do not affect performance and are not in conflict with the material requirements specified herein.
