AMENDMENT

TO

INTERIM FEDERAL SPECIFICATION

SWATTER, FLY

This amendment was developed by the Standardization Division, Federal Supply Service, General Services Administration, Washington, D.C. 20406, based upon currently available technical information. It is recommended that Federal agencies use it in procurement and forward recommendations for changes to the preparing activity at the address shown above.

The General Services Administration has authorized the use of this amendment as a valid exception to Interim Federal Specification GGG-S-00850 (GSA-FSS), dated November 17, 1966.

PAGE 1

Paragraph 2.1, line 4. Delete:

"L-P-390 - Plastic, Moulding Material, Polyethylene, Low or Medium Density".

PAGE 2

Paragraph 3.3.1 Delete in its entirety and substitute:

3.3.1 Blades. Unless otherwise specified (see 6.2), the blades shall be fabricated from insect type wire mesh, virgin polyethylene plastic, or plastic-coated fiber material. Wire mesh and plastic-coated fiber material shall have the edges bound to prevent fraying. Overall dimensions of the blade shall be within the range of 4 inches by 4 inches to 6 inches by 6 inches. Width of openings in the blade shall not exceed 1/8 inch.

Paragraph 3.3.1.1 Delete in its entirety.

Paragraph 3.3.3 Delete in its entirety and substitute:

3.3.3 Finish. Metal parts, other than corrosion resistant metals, shall be treated to resist corrosion by a metal coating or by painting.

Paragraph 3.3.3.1 Delete in its entirety.

PAGE 3

Paragraph 4.5, line 6. Delete "give" and substitute "be":

Paragraph 5.1 Delete "(see 6.)" and substitute "(see 6.2)".

Page 4

Paragraph 6.2 Add the following after option (b):

(c) Blade material, when required (see 3.3.1).

Redesignate original options (c) and (d) to read options (d) and (e), respectively.
