INTERIM AMENDMENT

TO

FEDERAL SPECIFICATION

PALLETS, MATERIAL HANDLING, PLYWOOD,
DOUBLE FACED STRINGER AND BLOCK CONSTRUCTION

This interim amendment was developed by General Services Administration, Federal Supply Service, Standardization Division, Washington, DC 20406, based on currently available technical information. It is recommended Federal agencies use it in procurement and forward recommendations for changes to the preparing activity at the address shown above.

The General Services Administration has authorized the use of this interim amendment as a valid exception to Federal Specification NN-P-73A dated December 2, 1969.

PAGE 1

Paragraph 1.2, after "Assemble method (b) bolted" add:

"Alternative assemble methods using adhesives."
