INTERIM AMENDMENT
TO
FEDERAL SPECIFICATION

INSECTICIDE, DDT-LINDANE INDOOR FOGGING TYPE

This interim amendment was developed by the Standardization Division, Federal Supply Service, General Services Administration, Washington, D. C. 20406, based upon currently available technical information. It is recommended that Federal agencies use it in procurement and forward recommendations for changes to the preparing activity at the address shown above.

The General Services Administration has authorized the use of this interim amendment as a valid exception to Federal Specification O-I-561b, dated May 16, 1966.

PAGE 2

Paragraph 3.3: Delete the table below the title "INSECTICIDE DDT-LINDANE INDOOR FOGGING TYPE FSN" and substitute:

ACTIVE INGREDIENTS	Percent by weight
Dichlorodiphenyl trichloroethane (DDT)	10.0%
Lindane (Gamma isoner of beuzene hexachloride)	2.0%
INERT INGREDIENTS	88.0%
	100.0%

Paragraph 3.3, after the last word on page "containers" add the following: "Do not use where exposed foods are handled."

PAGE 3

Under "Directions for Use", delete the first paragraph following this heading and substitute: "The insecticide formulation is nonexplosive and is to be used for indoor aerosol treatment of certain types of warehouses as specified. Do not use in dairy barns, poultry houses and private homes or for outdoor aerosol operations. Remove fish, birds, and pets from areas to be treated."

Under "Directions for Use", add the following paragraph: "The product is to be used as specified in equipment which produces a fog type space treatment as a preventive maintenance measure for insecticide treatment of warehouses to aid in controlling infectations of exposed crawling insects such as ants, bedbugs, cockroaches, fleas, silverfish, brown dog ticks, or wasps and also as a treatment for the control of adult mosquitoes."

PAGE 5

Paragraph 4.4.1.1, delete in its entirety and substitute: "4.4.1.1 Apparatus and reagents. The apparatus and reagents to be used are those specified in sections 4.209 through 4.210 of Official Methods of Analysis of Association of Official Agricultural Chemists, 10th Edition (1965)."
