INTERIM AMENDMENT

TO
FEDERAL SPECIFICATION

HANDCART, GROCERY, (NESTING)

This Interim Amendment was developed by the General Services Administration, Federal Supply Service, Washington, D. C. 20405, based upon currently available technical information. It is recommended that Federal agencies use it in procurement and forward recommendations for changes to the preparing activity at the address shown above.

The General Services Administration has authorized Federal agencies to use this Interim Amendment as a valid exception to Federal Specification RR-H-40a, dated July 28, 1966.

PAGE 2

Add new paragraph as follows:

3.2.7 Tolerance. The tolerance on the sizes specified in 1.2.2 shall be plus or minus 5 percent when tested in accordance with 4.4.3.

PAGE 3

Add new paragraph as follows:

4.4.3 Capacity. The size shall be determined by the grain measure level full method to determine compliance with the size in 1.2.2 and 3.2.7. The basket shall be lined with a thin material to hold grain. The basket shall then be filled with grain level full with the top edge of the basket. The capacity in cubic inches shall be determined by measuring the grain into a container of known cubic dimension.

Add new paragraph as follows:

4.4.3.1 Unless otherwise specified (see 6.2), the test for capacity (4.4.3) shall be required on the initial delivery and thereafter only when the manufacturer's basic design has been changed.

PAGE 4

Add to paragraph 6.2 as follows:

"(j) When tests for capacity is required for each delivery."
