INTERIM AMENDMENT

TO

FEDERAL SPECIFICATION

MOP, WET, COTTON, (WITH FIXED HANDLE)

This interim amendment was developed by General Services Administration, Federal Supply Service, Washington, D. C. 20406, based upon currently available technical information. It is recommended that Federal agencies use it in procurement and forward recommendations for changes to the preparing activity at the address shown above.

The General Services Administration has authorized the use of this amendment as a valid exception to Federal Specification T-M-580 dated July 28, 1965.

PAGE 1

Paragraph 2.1. under "Federal Specifications": Delete "CCC-C-467 - Cloth, Jute (or Kenaf), Burlap" and substitute "CCC-C-467 - Cloth, Burlap, Jute (or Kenaf)."

Under "Federal Standards": Delete "Fed. Std. No. 102 - Preservation, Packaging, and Packing Levels."

PAGE 2

Paragraph 3.1.2, line 2: Delete "8-ply" and substitute "4-ply".

PAGE 3

Following paragraph 4.1, insert the following new paragraph: "4.1.1 Certificate of compliance. Where certificates of compliance are submitted, the Government reserves the right to check test such items to determine the validity of the certification."

Paragraph 4.2.1: Delete and substitute: "4.2.1 Moisture content of wood. The moisture content of the wood blocks or handles (see 3.1.1) shall be determined in accordance with MIL-W-6110. Ten sample wood blocks intended for use in the fabrication of handles or ten sample handles to be used in the end-item inspection lot shall be tested. Failure of any sample to meet the moisture content requirement shall be cause for rejection of the lot of handles. A certificate of compliance, from the supplier of the mops, stating that the wood blocks or handles meet the moisture requirement will be considered as an acceptance for this characteristic with consideration given to the provisions of 4.1.1."
