MILITARY SPECIFICATION

DETONATOR, STAB, M20
LOADING, ASSEMBLING AND PACKING

This amendment forms a part of Military Specification MIL-D-46262A (MU), dated 3 June 1965 and is approved by the US Army Armament Research and Development Command and is available for use by all Departments and Agencies of the Department of Defense.

PAGE 1

Add the following preamble underneath the title:

"This specification is approved by the US Army Armament Research and Development Command and is available for use by all Departments and Agencies of the Department of Defense."

PAGE 3

4.2.1b: Delete and substitute the following:

"Lead azide of the same type from not more than two lots produced by the same manufacturer in accordance with the same specification and same specification revision and which have subsequently been subjected to uniformly controlled drying and operating conditions at the loading plants."
