MIL-C-45096D(PA)
AMENDMENT 1
9 December 1975

MILITARY SPECIFICATION

CARTRIDGE, 90MM, TP-T, M353A1
ASSEMBLING, MARKING AND PACKING

This Amendment forms a part of Military Specification MIL-C-45096D (MU) dated 10 January 1967, and is approved for use by all Departments and Agencies of the Department of Defense.

2.1 Add to Drawings - Army

"7258441 Gage Profile and Alignment
7258442 Gage Check Alignment
7258443 Check Gage"

Delete "ET-8861603 - Equipment Tabulation"

3.7 Delete "0.60 percent" and substitute "0.70 percent".

3.8.1 Delete "15 feet per second" and substitute "12 feet per second".

4.2.2.9 Add the following:

"Major: 100 Percent Inspection

102.	Profile or alignment incorrect.....	Gage/ 7258441 7258442 7258443	09014

Delete 4.2.3.4.

Delete 4.2.4 and substitute:

"4.2.4 The inspection equipment required to perform the examinations and tests prescribed herein is described in the "Method of Inspection" column in 4.2.2.1 through 4.2.2.12 or under "Test methods and procedures" paragraph 4.3 below. The contractor shall submit for approval inspection equipment designs in accordance with the terms of the contract. See Section 6."

Delete 4.2.4.1 and 4.2.4.2.

Delete paragraphs 6.3, 6.3.1, 6.3.2, 6.3.3, 6.3.4 and 6.3.5 and substitute:

"6.3 Inspection Equipment Designs - Inspection equipment designs are of two types - Government Special Inspection Equipment (SIE) designs and contractor designs. SIE designs are designated by drawing numbers under the "Test Methods and Procedures" heading in Section 4. Design responsibility for all other inspection equipment is assigned to the contractor. The contractor need not furnish any design when a complete Government SIE design is provided. Unless otherwise specified, however, the contractor may submit alternate or modified contractor designs of SIE in accordance with 6.3.2 and 6.3.3 should he elect to do so.

6.3.1 SIE Designs - SIE designs may consist of any of the following:

a. Detailed drawings which completely depict all information necessary for the fabrication and use of the item of inspection equipment.

b. A source control drawing or a specification control drawing as defined in MIL-STD-100.

c. An envelope drawing, as defined in MIL-STD-100, which established the criteria which a detailed design shall meet. When envelope drawings are specified, the contractor shall prepare designs which comply with the criteria therein.

6.3.2 Contractor Designs - Contractor designs are required for all inspection equipment for which SIE designs are not specified and may include commercial equipment which the contractor proposes to use. (Commercial equipment is defined as unmodified equipment which is cataloged and available for purchase by the general public.) Contractor designs shall include appropriate operating instructions, calibration procedures and maintenance procedures. Commercial equipment shall be fully described by catalog listings or other means which provide sufficient information to permit identification and evaluation by the Government and may include illustrations and engineering data. Designs shall be prepared for any special fixture(s) required to be used with commercial equipment, or with SIE designs if not otherwise covered thereby (See 6.2.1c). Designs shall be of the category and form (per MIL-D-1000) specified in the Contract Data Requirements Lists (DD Form 1423). The contractor is referred to MIL-HDBK-204 "Inspection Equipment Design" for guidance. The item detail specification number, paragraph number, and defect number from Section 4 shall be referenced on each contractor

design together with the component or assembly drawing number, revision letter and date to which the specific design applies.

6.3.3 Submission of Designs for Approval - Contractor designs shall be approved by the Government prior to fabricating or procuring the equipment. Designs shall be submitted for approval in accordance with the stipulations, time frame and distribution specified in the Contract Data Requirements Lists (DD Form 1423). Partial submission of inspection equipment designs is permissible and encouraged. However, the completion date for design review will be based on the date of the final submission of designs and the required delivery schedule as stipulated in the contract. Submit equipment designs, as required, to: Commander, Picatinny Arsenal, Attn: SARPA-QA-T-T, Dover, New Jersey 07801."

6.4 Delete "SMUPA-ND2" and"SMUPA-DC8" and substitute "SARPA-QA-A-A".
