MIL-F-45061E(PA)
AMENDMENT 2
25 FEBRUARY 1976
SUPERSEDING
AMENDMENT 1
15 MARCH 1975

MILITARY SPECIFICATION

FUZE, MINE, AT, NM, M606
PARTS FOR

This Amendment forms a part of Military Specification MIL-F-45061E(MU) dated 16 August 1973, and is approved for use by all Departments and Agencies of the Department of Defense.

1. Paragraph 4.2.1 - Delete this paragraph in its entirety and substitute the following:

4.2.1 Submission. - Prior to the start of regular production the contractor shall submit a first article sample (see 6.1c) to a Government approved facility as designated by the contracting officer for evaluation in accordance with the provisions of 4.2.2 and 4.2.3. The first article sample shall consist of 15 complete sets of parts, sub-assemblies, and assemblies, (including at least three (3) items from each cavity used to produce plastic parts and be so identified as to permit tracing each item to the cavity in which it was molded) which have been produced by the contractor or furnished by a supplier and which have been manufactured using the same production processes, procedures and equipment which will be used in fulfilling the contract. All parts and materials including packaging and packing shall be obtained from the same sorce of supply as will be used in regular production. Prior to submission, the contractor shall inspect the sample to the degree necessary to assure that it conforms to the requirements of the contract and submit a record of this inspection with the sample, including a certificate of conformance for materials. A sample containing known defects will not be submitted unless specifically authorized by the Contracting Officer. A first article sample, or portion thereof, as directed by the Contracting Officer, shall also be submitted whenever there is a lapse in production for a period in excess of 90 days or whenever a change occurs in manufacturing process, material used, drawing or specification such as to significantly affect product uniformity as
