INCH - POUND

MIL-DTL-43098/41
16 December 2019

DETAIL SPECIFICATION SHEET

MEDALLION, EXCEPTIONAL SERVICE MEDAL, DEPARTMENT OF HEALTH AND HUMAN SERVICES ASSISTANT SECRETARY FOR HEALTH

This specification is approved for use by all
Departments and Agencies of the Department of Defense

The requirements for acquiring the product described herein shall consist of this specification sheet and the latest issue of MIL-DTL-43098. And at the request of the office of the Department of Health and Human Services.

OBVERSE

REVERSE

MATERIAL: Red Brass 85/15 (UNS Alloy No. C-230)

FINISH: Epoxy, 24K Gold Plated, matte Finish, Polished Highlights and shall match The Institute of Heraldry (TIOH) Metal Finished Chip Number 8.

DIMENSIONS:
DIAMETER: 3 inches (REF)
THICKNESS (At outer rim): 0.185 inch ± 0.010 inch

MEDALLION CASE: The decoration set shall consist of a medallion and lapel button packaged in a presentation case conforming to MIL-C-14633, Type XV, Style 3 with a custom pad to be produced as part of the development. The following text shall be inscribed on top of the presentation case using one line: (line 1) Exceptional Service. The following text will be inscribed on the lower right of the presentation case using two lines: (Line 1) UNITED STATES, (Line 2) OF AMERICA.

Check the source to verify that this is the current version before use.

EPOXY (Obverse only): Epoxy shall be applied to the medallion as indicated above and as specified below, and shall match TIOH Hard Enamel Color Chip Number listed.

TIOH HARD ENAMEL COLOR CHIP NUMBER	LOCATIONS
Blue #20	(Observes) Outer Designation Band (Reverse) Inner Designation Band and Inside Square Background

NOTES:

1. The term (REF) refers to the measurements taken from the Government furnished obverse hub or die.

2. OBVERSE: The outer designation band shall have flush lettering, recessed background and filled with Blue #20. All the contents inside shall be recessed and modeled.

3. The area just inside of the rim will be recessed. The area next to that with the pointed shape shall be slightly raised. The inner designation band will be raised higher with flush lettering and filled with Blue Epoxy #20. Inside the designation band will be 2 steps down that lead to a recessed area. On the recessed area, the letters, name plate and square shape will be raised to the same height as designation band. Inside the square, the stars will be flush, the design will be recessed and the background will be filled with Blue Epoxy #20.

4. Hard enamel may be used in lieu of epoxy. If enamel is used, the required base material for the medallion shall be Gilding Metal (UNS Alloy C-210).

5. This item is not authorized for commercial sale, and may be produced only under Government contract and at the request of the Department of Health and Human Services.
