Check the source to verify that this is the current version before use.

MEDALLION CASE: The decoration set shall consist of a medallion and lapel button packaged in a presentation case conforming to MIL-DTL-14633, Type II, class 9 with a custom pad to be produced as part of the development. The following shall be inscribed on top of the presentation case using four lines: (line 1) UNITED STATES (line 2) OF AMERICA.

EPOXY: Epoxy shall be applied to the medallion as indicated above and as specified below and shall match TIOH Hard Enamel Color Chip Number listed.

TIOH HARD ENAMEL COLOR CHIP NUMBER	LOCATIONS
Blue #20	(Obverse) Outer Designation Band (Reverse) Inner Designation Band and Inside Square Background

NOTES:

1. The term (REF) refers to the measurements taken from the Government furnished obverse hub or die.

2. Obverse The outer designation band shall have flush lettering, recessed background and filled with Blue #20. All the contents inside shall be recessed and modeled.

3. Reverse The area just inside of the rim will be recessed. The area next to that with the pointed shape shall be slightly raised. The inner designation band will be 2 steps down that lead to a recessed area. On the recessed area, the letters, name plate and square shape will be flush, the design will be recessed, and the background will be filled with Blue Epoxy #20.

4. Hard enamel may be used in lieu of epoxy, if enamel is used , the required base material for the medallion shall be Gilding Metal (UNS Alloy C-210).

5. This item is not authorized for commercial sale. And maybe produced only under Government contract and the request of the Department of Health and Human Service.
