MILITARY SPECIFICATION SHEET

TOPOGRAPHIC SUPPORT SYSTEM (TSS):

PRESS SECTION, TOPOGRAPHIC

SUPPORT SET, SEMITRAILER MOUNTED

This specification sheet is approved for use by the Mobility Equipment Research and Development Command, Department of the Army, and is available for use by all Departments and Agencies of the Department of Defense.

The complete requirements for procuring the press section described herein shall consist of this document and the latest issue of MIL-T-52966(ME).

1. REQUIREMENTS

1.1 Description. The press section shall be as shown in Figure 1 and shall be equipped with the components listed in SC 3610-97-CL-E23.

1.2 Components. Components of the press section shall be manufactured and operate in conformance with the component's technical specifications and literature.

2. TEST

2.1 Component test. The component test procedures shall be written and conducted by the contractor to determine the component's conformance to its technical specifications and literature. The test shall be conducted in a van environment. The component test shall be conducted twice; once prior to testing and once after completing all testing as specified in Section 4 of the general specification.
