MILITARY SPECIFICATION

BLANKET, DOG

This amendment forms a part of Military Specification MIL-B-3621B, dated 10 January 1968, and is approved for use by all Departments and Agencies of the Department of Defense.

PAGE 3

3.2: After "Materials" add "(see 6.4)".

PAGE 4

3.3.3: Delete in entirety and substitute:

"3.3.3 Setting of the metallic snap fastener. A hole shall be prepunched through the material before inserting the stud eyelet tube or the socket eyelet tube. The hole shall be smaller than the outside diameter of the applicable eyelet tube, so that the tube must be forced through the hole. Prepunched holes shall not be accomplished by using stud or socket eyelet tubes (as applicable). The fastener components shall be securely clinched without cutting the surrounding material. Roll of the clinched eyelet of the assembled fastener components shall not possess more than two scores (splits)."

PAGE 6

4.3.3.1: Add the following snap fastener examination:

Examine	Defect	Classification Major	Minor
"Snap fastener	Roll of clinched eyelet fastener assembly contains more than two scores (splits)		X"

PAGE 12

6.4 Add:

"6.4 Recycled material. It is encouraged that recycled material be used when practical as long as it meets the requirements of this specification."
