MILITARY SPECIFICATION

DETONATOR, STAB, PA523
PARTS FOR

This specification is approved for use within the U.S. Army Armament, Munitions and Chemical Command, and is available for use by all Departments and Agencies of the Department of Defense.

1. SCOPE

1.1 Scope. This specification covers quality assurance provisions and preparation for delivery for the loading and assembling of Detonator, Stab, PA523.

2. APPLICABLE DOCUMENTS

2.1 Government documents.

2.1.1 Specifications and standards. The following specifications and standards form a part of this specification to the extent specified herein. Unless otherwise specified, the issues of these documents shall be those listed in the issue of the Department of Defense Index of Specifications and Standards (DoDISS) and supplement thereto, listed in the solicitation.

SPECIFICATIONS

MILITARY

MIL-STD-1169 - Packaging, Packing and Marking for Shipment of Inert Ammunition Components.

MIL-A-48078 - Ammunition, Standard Quality Assurance Provisions, General Specification For

Beneficial comments (recommendations, additions, deletions) and any pertinent data which may be of use in improving this document should be addressed to: Commander, U.S. Army Armament Research, Development and Engineering Center, Attn: AMSMC-QA, Dover, New Jersey 07801-5001 by using the self-addressed Standardization Document Improvement Proposal (DD Form 1426) appearing at the end of this document or by letter.

DISTRIBUTION STATEMENT A. Approved for public release; distribution is unlimited.

STANDARDS

MILITARY

MIL-STD-105	-	Sampling Procedures and Table for Inspection by Attributes.
MIL-STD-1235	-	Continuous Sampling Procedures and Table for Inspection by Attributes.

(Copies of specifications, standards, drawings, and publications and other Government documents required by the suppliers in connection with specific procurement functions shall be obtained from the procuring activity or as directed by the Contracting Officer).

2. 1.2 Other Government documents, drawings, and publications. The following other Government documents, drawings, and publications form a part of this specification to the extent specified herein. Unless otherwise specified, the issues shall be those in effect on the date of the solicitation.

DRAWINGS

U.S. ARMY ARMAMENT RESEARCH, DEVELOPMENT AND ENGINEERING CENTER (ARDEC)

8795797	-	Disc, Detonator
8797036	-	Disc, Detonator Closing
8797745	-	Cup, Detonator

2.2 Order of precedence. In the event of a conflict between the text of this specification and the references cited herein, the text of this specification shall take precedence. Nothing in this specification, however, shall supersede applicable laws and regulations unless a specific exemption has been obtained.

3. REQUIREMENTS

3.1 Material. Materials, parts and assemblies shall be in accordance with applicable drawings, specifications and standards.

Source: https://assist.dla.mil -- Downloaded: 2026-10-23T03:47Z
Check the source to verify that this is the current version before use.

3.2 Parts. The parts shall comply with all requirements specified on Drawings (dwgs.) 9358081, 9358082, and 9358083 as applicable, and with all requirements specified in applicable specifications.

3.3 First article inspection. This specification contains provisions for first article inspection, Requirements for the submission of first article samples by the contractor shall be as specified in the contract.

3.4 Workmanship. All parts and assemblies shall be fabricated and finished in a thorough workmanlike manner and all manufacturing, processing, and assembly operations shall be correctly performed. They shall be clean and free of cracks, gouges, burrs, sharp edges, unblended radii, surface defects, chips, dirt, grease, and oil (except where specifically required), corrosion products, and other foreign matter. The cleaning method used shall not be injurious to. any part nor shall the parts be contaminated by the cleaning agent. Exterior surface coatings shall be continuous except for a few light scratches not exposing base material. All required markings shall be neat, and sharply defined. All packing shall be dry.

4. QUALITY ASSURANCE PROVISIONS

4.1 Responsibility for inspection and standard quality assurance provisions. Unless otherwise specified herein or in the contract, the provisions of MIL-A-48078 shall apply and are hereby made a part of this detail specification.

4.1.1 Responsibility for compliance. All items must meet all requirements of sections 3 and 5. The inspection set forth in this specification shall become a part of the contractor's overall inspection system or quality program. The absence of any inspection requirements in the specification shall not relieve the contractor of the responsibility of assuring that all products or supplies submitted to the Government for acceptance comply with all requirements of the contract. Sampling in quality conformance does not authorize submission of known defective material, either indicated or actual, nor does it commit the Government to acceptance of defective material.

3.2 Classification of inspections. The inspection requirements specified herein are classified as follows:

a. First article inspection.

b. Quality conformance inspection.

4.3 First article inspection.

4.3.1 Submission. The contractor shall submit a first article sample as designated by the Contracting Officer for evaluation in accordance with provisions of 4.3.2. The first article sample shall

Check the source to verify that this is the current version before use.

The first article sample shall be evaluated in accordance with the provisions of 4.3.2 and 4.3.3. Unless otherwise directed by the Contracting Officer, loaded components shall not be submitted to a Proving Ground for any test until the above assemblies submitted in accordance with this paragraph have been accepted.

4.3.2 Inspections to be performed. See MIL-A-48078 and Table I specified herein. If any item fails to comply with any of the applicable requirements the first article sample shall be rejected.

4.3.3 Rejection. See MIL-A-48078. If any items fails to comply with any of the applicable requirements the first article sample shall be rejected.

4.4.3 Testing. Testing is described in the First Article and Quality Conformance Inspection Tables.

4.4.4 Inspection equipment. The inspection equipment required to perform the inspections and test prescribed in this specification is identified in the "Paragraph Reference/Inspection Method" column in the table starting with paragraph 4.4.2.1, and the test method paragraph (see 4.5). The contractor shall submit for approval inspection equipment designs in accordance with the terms of the contract. See Section 6 of MIL-A-48078, and 6.3 herein.

4.5 Methods of inspection. Not applicable

5. PACKAGING

5.1 Packaging.

5.1.1 Level C. Packing and marking shall be in accordance with Specification MIL-STD-1169.

6. NOTES

6.1 Ordering data. See MIL-A-48078.

6.2 Data cards. (See MIL-A-48078). Distribution of data cards shall include the following: Commander, US ARDEC, ATTN: AMSMC-QAT-M(D), Dover, New Jersey 07801-5001.

6.3 Submission of inspection equipment designs for approval. (See MIL-A-48078). Equipment designs shall be submitted as required to: -Commander, US ARDEC, ATTN: AMSMC-QAT-I(D), Dover, New Jersey 07801-5001.

6.4 Drawings. Drawings listed in section 2 of this specification under the heading US Army Armament Research, Development and Engineering Center (ARDEC) may also include drawings prepared by and identified as US Army Armament Research and Development Command (ARRADCOM), Edgewood Arsenal, Frankford Arsenal, Rock Island Arsenal or Picatinny Arsenal drawings. Technical data originally prepared by these activities are now under the cognizance of ARDEC.

6.5 Changes from previous issue. Asterisks are not used in this revision to identify changes with respect to the previous issue, due to the extensiveness of the changes.

INSTRUCTIONS: In a continuing effort to make our standardization documents better, the DoD provides this form for use in submitting comments and suggestions for improvements. All users of military standardization documents are invited to provide suggestions. This form may be detached, folded along the lines indicated, taped along the loose edge *(DO NOT STAPLE)*, and mailed. In block 5, be as specific as possible about particular problem areas such as wording which required interpretation, was too rigid, restrictive, loose, ambiguous, or was incompatible, and give proposed wording changes which would alleviate the problems. Enter in block 6 any remarks not related to a specific paragraph of the document. If block 7 is filled out, an acknowledgement will be mailed to you within 30 days to let you know that your comments were received and are being considered.

NOTE: This form may not be used to request copies of documents, nor to request waivers, deviations, or clarification of specification requirements on current contracts. Comments submitted on this form do not constitute or imply authorization to waive any portion of the referenced document*(s)* or to amend contractual requirements.
