COMMERCIAL ITEM DESCRIPTION

PIES, FRESH, FRUIT FILLED, READY-TO-EAT

The U.S. Department of Agriculture has authorized the use of this Commercial Item Description in preference to Type I, Style 1 of MIL-P-35095; Pies, Fresh and Frozen.

Salient Characteristics.

Pies, fresh, fruit filled, ready-to-eat shall consist of a bottom crust with either of the following as the top crust: (a) full top crust, (b) lattice top crust, or (c) crumb top crust, and shall be fruit filled of 8-, 9-, or 10-inch diameter as specified in the contract. Pies shall have a semisolid fruit filling with a pH of 4.5 or less and a viscosity that will permit the baked pie to be sliced as desired without the filling spreading more than 3/4 inch from the cut edge within 10 minutes after slicing. The fillings shall be prepared from fresh, canned, evaporated or dried fruit, or frozen fruit, with sufficient sugar added. The fillings shall be formulated from not less than 50 percent by weight of fruit, based on the weight of fresh fruit. In addition, appropriate liquid, flavoring(s), spice(s), seasoning(s), thickening agent(s) and other FDA approved ingredients, may be used which will give a satisfactory finished product. The fillings shall have a flavor characteristic of the basic fruit, and the finished pie shall have no off-flavors or off-odors. The crust shall be evenly and properly baked with no areas of burned or scorched crust; shall be flaky and not tough or soggy; shall not stick to the container; and shall provide sufficient rigidity so that a cut pie portion may be removed and transferred to a serving plate without crumbling or breaking. The finished product shall be free of lumpy or ungelatinized starch pockets and an uncooked raw starch flavor. The pie shall be so formulated and baked that there will be a minimum of filling exuded or extruded beyond or outside the crust. The 8-inch diameter pie shall weigh not less than 22 ounces and the 9- 10-inch diameter pie shall weigh not less than 36 ounces. The thickness of the bottom-baked crust shall be not greater than 3/16 inch and the top thickness not greater than 1/8 inch for regular crust, and for crumb-top the thickness shall be not greater than 1/4 inch. Pies shall not be more than 24 hours old at time of receipt.

Contractor's Certification.

By submitting an offer, the contractor certifies that the product offered meets the specified salient characteristics of this Commercial Item Description; conforms to the producer's own specifications and standards, including product characteristics, manufacturing procedures, quality control procedures, and storage and handling practices; has a national or regional distribution from storage facilities located within the United States, its territories, or possessions; and is sold on the commercial market. The Government reserves the right to determine proof of such conformance prior to

first delivery from point of origin and any time thereafter, up to and including delivery at final destination, as may be necessary to determine conformance with the provisions of the contract.

Regulatory Requirements.

The delivered product shall comply with all applicable Federal and State mandatory requirements and regulations relating to the preparation, packaging, labeling, storage, distribution, and sales of the product in the commercial marketplace. All deliveries shall conform in every respect to the provisions of the Federal Food, Drug, and Cosmetic Act and regulations promulgated thereunder.

Preservation, Packaging, Packing, Labeling, and Marking (as appropriate and applicable).

The pies shall be preserved, packaged, packed, and case marked in accordance with good commercial practice. Commercial labeling and packaging, as may be augmented by the contract or purchase order, shall be acceptable. Shipping containers shall comply with the National Motor Freight Classification or Uniform Freight Classification, as applicable.

For Department of Defense Procurement only.

The following requirements are applicable when specified by the contracting officer:

A. Packaging. The pies shall be packaged in accordance with good commercial practice. The package shall afford adequate protection against deterioration and physical damage during shipment from the supply source to the first consuming activity.

B. Packing. Packing shall be in accordance with good commercial packing complying with the Uniform Freight Classification or National Motor Freight Classification, as applicable.

C. Labeling. Commercial labeling of packages will be acceptable, provided the date of packaging (day and month, which may be abbreviated) is shown in an easily discernible location, and is in compliance with the regulations promulgated by the Food and Drug Administration.

D. Marking. Commercial markings of shipping containers are acceptable provided the following information is included:

National Stock Number
Item Description
Quantity, Unit of Issue
