MIL-B-23272B
AMENDMENT 2
31 March 1980
SUPERSEDING
AMENDMENT 1
7 May 1975

MILITARY SPECIFICATION

BATTERY, STORAGE: ALKALINE, NICKEL-CADMIUM

This amendment forms a part of Military Specification MIL-B-23272B, dated 19 June 1970, and is approved for use by all Departments and Agencies of the Department of Defense.

PAGE 1

Preamble, line 1, delete "mandatory" and substitute "approved".

2.1, under "SPECIFICATIONS, MILITARY" insert:
"MIL-M-13231 - Marking of Electronic Items."

PAGE 2

3.1, delete entire paragraph and substitute:

"3.1 First article. A first article sample of the batteries to be furnished under this specification shall be produced prior to the manufacture of the items in production quantities. Batteries furnished under this specification shall be products which are represented by a first article sample that has been tested and has passed the first article inspection specified herein (see 4.2). Approval of the first article sample by the activities concerned shall not relieve the contractor of his obligation to supply batteries in production that are fully representative of those inspected as a first article sample. Any change or deviations of the production units from the first article sample shall be subject to the approval of the contracting officer."

PAGE 2

* 3.2, add at end of paragraph: "(see 6.5)."

TABLE II. Delete and substitute:

TABLE II. Order of first article testing.

Sample	Paragraph	Test
1 and 2	4.5.3.1	Ampere-hour capacity for fully charged batteries
	4.5.3.2	Cranking ability at plus 80°F
	4.5.3.2	Cranking ability at minus 40°F
	4.5.3.3	Endurance
3 and 4	4.5.3.5	Retention of charge
	4.5.3.6	Temperature rise
	4.7.1.1	Thermal shock resistance
	4.5.3.4	Overcharge cycle capacity
5	4.6.1.1	Vibration resistance
	4.5.4.1	Dielectric strength
	4.6.2.2	Terminal post torque resistance
	4.6.2.1	Vent plug leakage
	4.7.2.2	Corrosion resistance
	4.6.2.3	Plastic rope handle test
Cell container	4.7.2.1	Alkali absorption resistance

* 3.8, insert "National Stock Number" between "Rated capacity." and "Manufacturer's serial number."

3.8.2, delete and substitute:

"3.8.2 Battery caution label. The battery shall be furnished with a caution label prominently located near the filler plugs. This label shall be in red printing in accordance with MIL-M-13231. It shall be resistant to 1.3 ± 0.1 specific gravity KOH electrolyte and read as follows:

"CAUTION"

THIS BATTERY MUST BE SERVICED ONLY IN
AN AUTHORIZED NICKEL-CADMIUM BATTERY SHOP.

The word "CAUTION" shall be in 0.375 inch high lettering. All other words shall be in 0.20 inch high lettering."

* 4.2, delete and substitute:

"4.2 First article inspection. The first article sample (see 3.1), shall consist of five batteries of each type to be tested. The samples, properly marked with identifying information, shall be representative of the items proposed to be furnished to the Government. Unless otherwise specified, first article inspection shall be conducted by the manufacturer under Government surveillance and shall consist of examination for the defects specified in 4.3.2.2, and testing as specified in table II."

4.2.1, line 1, delete "qualification" and substitute "first article".

4.2.1, line 2, delete "conduct" and substitute "permit".

4.3, delete "oconformance" and substitute "conformance."

PAGE 9

4.3.3.1, TABLE IV, delete and substitute:

"TABLE IV. Order of acceptance testing.

Paragraph	Test
4.5.3.1	Ampere-hour capacity (one cycle only)
4.6.2.1	Vent plug leakage
4.6.2.2	Terminal post torque"

4.4.1, line 5, delete "table VI" and substitute "table V".

4.4.1, TABLE VI, delete and substitute:

* "TABLE V. Order of control testing.

Sample	Paragraph	Test
1 and 2	4.5.3.1	Ampere-hour capacity
	4.5.3.2	Cranking ability
	4.5.3.6	Temperature rise
	4.6.1.1	Vibration resistance
	4.5.4.1	Dielectric strength
	4.7.1.1	Thermal shock resistance
	4.6.2.3	Plastic rope handle test"

PAGE 13

4.6.1.1, line 2, delete "ambieg" and substitute "ambient".

PAGE 16

* 6.3, delete in its entirety and substitute:

"6.3 First article. When a first article is required, it shall be tested and approved under the appropriate provisions of 7-104.55 of the Armed Services Procurement Regulation. The contracting officer should include specific instructions in all procurement instruments regarding arrangements for examination, tests and approval of the first article (see 3.1)."

Add new paragraph as follows:

"6.4 International standardization agreement. Certain provisions of this specification are the subject of international standardization agreements as set forth in QSTAG-140 and NATO-STANAG 4015. When amendment, revision or cancellation of this specification is proposed, the departmental custodians will inform their respective Departmental Standardization Offices so that appropriate action may be taken respecting the international agreement concerned."

* Add new paragraphs as follows:

* "6.5 Recycled materials. The use of recycled materials which meet the requirements of the applicable material specifications without jeopardizing the intended use of the item shall be encouraged.

* 6.6 Changes from previous issue. The margins of this specification are marked with an asterisk to indicate where changes (addition, modifications, corrections, deletions) from the previous issue were made. This was done as a convenience only and the Government assumes no liability whatsoever for any inaccuracies in these notations. Bidders and contractors are cautioned to evaluate the requirements of this document based on the entire content irrespective of the marginal notations and relationship to the last previous issue."
