COMMERCIAL ITEM DESCRIPTION

BAG, COTTON DUCK (SOIL AND GRAIN)

The General Services Administration has authorized the use of this commercial item description in lieu of Federal Specification PPP-B-1087.

Salient characteristics:

The cloth used in the production of the bag shall be commercial duck, designation No. 12, natural color. The bag shall have a plain selvage top, designed without hem, grommets, and drawstring, and shall have a capacity of 1 bushel. All stitching shall conform to type 301 and 401 of Federal Standard No. 751.

Workmanship. The bag shall be clean, well constructed, and free from any defects which may affect its appearance or serviceability.

Certification. The contractor shall certify that the product offered meets the salient characteristics of this description and that the product conforms to the producer's own drawings, specifications, standards, and quality assurance practices and is the same product offered for sale in the commercial marketplace. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Recovered materials. The manufacturer shall utilize recovered materials to the maximum extent practicable.

Packing and marking. The bags shall be packed in accordance with normal commercial practice to assure acceptance by common carrier and provide product protection against loss and damage during multiple shipments, handling, and storage. The shipping containers shall be in compliance with the National Motor Freight Classification and Uniform Freight Classification. Marking shall be as specified in the contract or order.
