COMMERCIAL ITEM DESCRIPTION

TWINE, FIBROUS, JUTE

The General Services Administration has authorized the use of this commercial item description in lieu of Federal Specification T-T-911.

Salient characteristics:

The twine shall be made from jute, shall have a natural color and finish and shall be nonstaining when used (commercially called "stainless"). The twine shall be available in the following sizes and corresponding physical properties:

Size No.	Ply (Min.)	Length Per Pound (Minimum Feet)	Breaking Strength (Minimum Pounds)
0	1	1960	17
1	2	1450	20
2	2	950	32
3	2	800	43
4	2	640	54
7A	2	130	260

The twine shall be put-up on a nominal weight (± 5.0 percent) basis as either 1/2 pound, 1 pound, 5 pound balls or coreless tubes. Each ball or coreless tube shall be continuous throughout, shall contain no loose ends, shall be wound so that each turn and layer is free from entanglement and shall unwind from the inside without collapsing. Each ball or coreless tube shall not contain more than one knot per 1/2 pound of twine.

Certification. The contractor shall certify that the product offered meets the salient characteristics of this description, and that the product conforms to the producer's own drawings, specifications, standards, and quality assurance practices and is the same product offered for sale in the commercial marketplace. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Recovered materials. The manufacturer shall utilize recovered materials to the maximum extent practicable.

Packaging, packing, and marking. The twine shall be packaged in accordance with normal commercial practice and packed in fiberboard boxes that will assure acceptance by common carrier and provide product protection against loss and damage during multiple shipment, handling, and storage. The shipping container shall be in compliance with National Motor Freight Classification and Uniform Freight Classification. Shipping containers shall be marked as specified in the contract or order.
