COMMERCIAL ITEM DESCRIPTION

BRUSH, SCRUB, ALL PLASTIC, STEAMKETTLE

The General Services Administration has authorized the use of this commercial item description in lieu of interim Federal Specification H-B-001137.

This commercial item description covers plastic scrub brushes for cleaning large steamkettle vats in institutional kitchens.

Salient characteristics:

The brush block, filaments, and handle shall be made from plastic suitable for the purpose intended.

The handle shall have a grip added as a component or as an integral design.

The block shall be cylindrical and of one-piece construction.

The handle hole shall be located equidistant from each end of the block.

Tuft holes shall be located in accordance with the manufacturer's regular commercial practice.

Dimensions:

Block:		
Length, overall (minimum, inches)	-	4-13/16
Diameter (minimum, inches)	-	2-1/4
Tuft holes:		
Number (minimum):		
cylindrical body	-	112
each end	-	41
Filaments (bristles):		
Length clear of block (minimum, inches)	-	1-5/16
Handle:		
Length, overall (minimum, inches)	-	36

Certification. The contractor shall certify that the product offered meets the salient characteristics of this description and that the product conforms to the producer's own drawings, specifications, standards, and quality assurance practices and is the same product offered for sale in the commercial marketplace. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Recovered materials. The manufacturer shall utilize recovered materials to the maximum extent practicable.

Packaging, packing, and marking. The brushes shall be packaged in accordance with normal commercial practice and packed in fiberboard boxes that will assure acceptance by common carrier and provide product protection against loss and damage during multiple shipments, handling, and storage. The shipping container shall be in compliance with National Motor Freight Classification and Uniform Freight Classification. Marking shall be as specified in the contract or order.
