COMMERCIAL ITEM DESCRIPTION

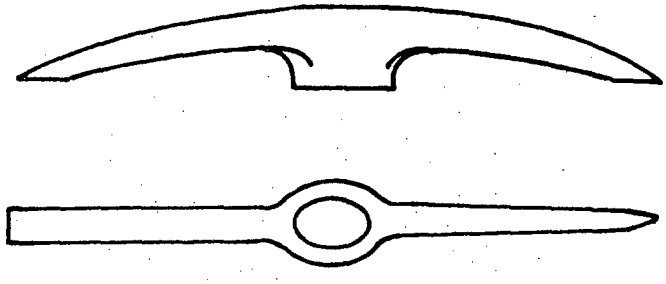

# PICK, CLAY, POINT AND CHISEL ENDS (WITHOUT HANDLE)

The General Services Administration has authorized the use of this commercial item description in lieu of Federal Specification GGG-H-506.

This commercial item description covers a point and chisel clay pick.

Salient characteristics:

Material: Carbon steel, forged.
Design: Anchor curve, similar to figure below. Eye size No. 6.
Size: Per table below for NSN assigned.
Hardness: Rockwell C 45 - 52.
Finish: Suitable rust preventative coating.

Pick, clay, point and chisel ends (without handle)

| National Stock Number | Nominal size (lb) |
|---|---|
| 5120-00-194-9458 | 7 |
| 5120-00-919-4574 | 9 |

Workmanship. All picks shall be free from imperfections which may affect their appearance, serviceability, or durability.

Certification. The contractor shall certify that the product offered meets the salient characteristics of this description and that the product conforms to the producer's own drawings, specifications, standards, and quality assurance practices and is the same product offered for sale in the commercial marketplace. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Recovered materials. The manufacturer shall utilize recovered materials to the maximum extent practicable.

Preservation, packaging, packing, and marking. The clay pick shall be preserved and packaged in accordance with normal commercial practice and packed in fiberboard boxes that will assure acceptance by common carrier and provide product protection against loss and damage during multiple shipments, handling, and storage. The shipping container shall be in compliance with National Motor Freight Classification and Uniform Freight Classification. Marking shall be as specified in the contract or order.
