COMMERCIAL ITEM DESCRIPTION

SOAP, GRIT (CAKE PUMICE SOAP)

The General Services Administration has authorized the use of this commercial item description in lieu of Federal Specification P-S-576.

This commercial item description covers pumice soap in cake form for removing oil, grease, and other heavy occupational soils from the hands.

Salient characteristics:

The product shall conform to ASTM D 2955 - Standard Specification for Hand Scrubbing Soap (Grit Soap) Paste and Bar, Type B - Bar Soap; except that the maximum for free fatty acid shall be 3.0 percent. The issue of ASTM D 2955 in effect on the date of the solication shall be used to determine compliance with this requirement.

Certification. The contractor shall certify that the product offered meets the salient characteristics of this description, and that the product conforms to the producer's own drawings, specifications, standards and quality assurance practices and is the same product offered for sale in the commercial marketplace. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Packaging, packing, and marking. The soap cakes shall be packaged in accordance with normal commercial practice and packed in fiberboard boxes that will assure acceptance by common carrier and provide product protection against loss and damage during multiple shipments, handling, and storage. The shipping container shall be in compliance with National Motor Freight Classification and Uniform Freight Classification. Shipping containers shall be marked as specified in the contract or order.

ASTM Standards are available from the American Society for Testing and Materials, 1916 Race Street, Philadelphia, PA 19103.

Note. Purchasers should specify in the contract the cake weight required.
