COMMERCIAL ITEM DESCRIPTION

PAPER, WRAPPING, DRY WAXED (FOR FOOD WRAPPING)

The General Services Administration has authorized the use of this commercial item description, in lieu of Federal Specification UU-P-270.

Salient characteristics:

The waxed paper shall comply with the Federal Food, Drug, and Cosmetic Act and regulations promulgated thereunder.

The waxed paper shall be white with a basis weight, bursting strength, tearing resistance, tensile strength, and wax content as specified in table I. Tests to determine compliance with these requirements shall be as follows: Basis weight - TAPPI T 410; bursting strength - TAPPI T 403; tearing resistance - TAPPI T 414; tensile strength - TAPPI T 404; and wax content - TAPPI T 405. The waxed paper shall be furnished in sheets or rolls of the dimensions specified, ± 1/8 inch. Roll length shall be as specified - 0, + unlimited. Rolls shall be wound on nonreturnable cores with a 3 inch ± 1/16 inch inside diameter.

Workmanship. The dry-waxed paper shall be uniformly waxed and coated, clean, and free from all imperfections which may impair its serviceability.

The issues of TAPPI test methods, in effect on the date of the solicitation, shall be used to determine compliance with stated requirements.

TABLE I. Physical requirements

Basis weight (24 x 36-500) plus or minus five percent	Bursting strength average, minimum	Tearing resistance weakest direction average, minimum	Tensile strength weakest direction, average, minimum	Wax content (24 x 36-500) sheets, min.
Pounds	Points	Grams	Pounds per inch Width	Pounds
20	10	14	3	3
25	12	17	5	4
30	21	21	7	5
35	24	25	8	6
40	28	30	9	7
50	35	40	12	8
60	42	50	13	10

Certification. The contractor shall certify that the product offered meets the salient characteristics of this description, and that the product conforms to the producer's own drawings, specifications, standards, and quality assurance practices and is the same product offered for sale in the commercial marketplace. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Packaging, packing, and marking. The packaging and packing shall be in accordance with normal commercial practice and shall assure acceptance by common carrier and provide product protection against loss and damage during multiple shipments, handling, and storage. The shipping container shall be in compliance with the National Motor Freight Classification and Uniform Freight Classification. Marking shall be as specified in the contract or order.

TAPPI test methods are available from the Technical Association of the Pulp and Paper Industry, One Dunwoody Park, Atlanta, GA 30341.

Note: Purchasers should specify form, dimensions, and basis weight of the paper required.
