COMMERCIAL ITEM DESCRIPTION

DEXTROSE INJECTION, USP
(Large Volume Injection for Single Dose Infusion)

The General Services Administration has authorized the use of this Commercial Item Description as a replacement for Military Specification MIL-D-37457 which is cancelled.

Salient characteristics:

Shall be Dextrose Injection, USP.

Shall be in accordance with the requirements of the USP.

All ingredients shall be of a pharmaceutical grade.

For Strength 1, shall contain 5 percent Dextrose within the applicable assay limits for the injection.

For Strength 2, shall contain 10 percent Dextrose within the applicable assay limits for the injection.

Type 1 - Shall be a single dose, transparent plastic bag having two permanently attached outlet ports. One outlet port shall have a rubber latex sleeve attached or natural rubber stopper and shall be suitable for an injection site. The other port shall be force fitted with a suitable sterility protector and shall accept and retain the piercing device of the stocklisted IV administration sets listed in notes section. The outlet port shall be of such design as to hold and make a proper leak-proof fit with the IV administration set.

The plastic bag shall be designed to facilitate hanging the bag in a ports upward position during addition of medication through the injection site.

The opposite end of the plastic bag shall have a heavy gauge plastic hanger strap which is an integral part of the body of the container and shall have a slot in the center of the hanger strap.

AMSC/NA FSC 6505

DISTRIBUTION STATEMENT A. Approved for public release; distribution is unlimited.

Check the source to verify that this is the current version before use.

The integral hanger shall be of sufficient strength to bear the weight of the filled bag with attached IV administration set.

The plastic bag shall be supplied in an overpouch which shall serve as a water vapor barrier.

Type II - Shall be a single dose commercially available glass immediate container.

The stopper shall accept and retain the piercing device of the stocklisted Intravenous Injection Sets listed in notes.

Shall have a hanging device of sufficient strength to bear the weight of the filled container with attached IV administration set.

Workmanship. The product shall be free from defects which detract from its appearance or impair its serviceability.

Unit. Package (PG).

For Size 1, shall be supplied 250 ml in a plastic bag with overpouch. One package containing 24 bags, as specified, constitutes one unit.

For Size 2, shall be supplied 500 ml in a plastic bag with overpouch. One package containing 18 bags, as specified, constitutes one unit.

For Size 3, shall be supplied 1000 ml in a plastic bag with overpouch. One package containing 12 bags, as specified, constitutes one unit.

For Size 4, shall be supplied 250 ml in a glass immediate container. One package containing 12 glass containers, as specified, constitutes one unit.

For Size 5, shall be supplied 1000 ml in a glass immediate container. One package containing 6 glass containers, as specified, constitutes one unit.

Contractor certification. The contractor shall certify that the product offered meets the salient characteristics of this description and conforms to the producers' own drawings, specifications, standards, and quality assurance practices. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Regulatory requirements.

Federal Food, Drug and Cosmetic Act. If the product covered by this document has been determined by the U.S. Food and Drug Administration to be under its jurisdiction, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of the Federal Food, Drug and Cosmetic Act, as amended, and regulations promulgated thereunder. In addition, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of all other applicable Federal, State, and local statutes, ordinances, and regulations.

Recovered materials. The offeror/contractor is encouraged to use recovered material in accordance with Public Law 94-580, as amended, and as implemented by Federal Acquisition Regulation Subpart 23.4 to the maximum extent practical.

Preservation, packaging, packing, labeling, and marking. Unless otherwise specified, preservation, packaging, and packing shall be to a degree of protection to preclude damage to containers and/or contents thereof under normal shipping conditions, handling, etc., involving shipment from the supply source to the receiving activity, plus reshipment from receiving activity, and shall conform to applicable carrier's rules and regulations. Intermediate and exterior package quantities and labeling and marking shall be as specified in the contract and/or order.

NOTE 1: National Stock No. 6505-01-182-8009 shall be suitable for use with NSN 6545-01-079-4253 Resuscitation Kit, Cardiopulmonary, such that two of the plastic bags shall fit into the kit.

NOTE 2: The following Intravenous Injection Sets shall be compatible with items covered by this document:

INSTRUCTIONS: In a continuing effort to make our standardization documents better, the DoD provides this form for use in submitting comments and suggestions for improvements. All users of military standardization documents are invited to provide suggestions. This form may be detached, folded along the lines indicated, taped along the loose edge *(DO NOT STAPLE)*, and mailed. In block 5, be as specific as possible about particular problem areas such as wording which required interpretation, was too rigid, restrictive, loose, ambiguous, or was incompatible, and give proposed wording changes which would alleviate the problems. Enter in block 6 any remarks not related to a specific paragraph of the document. If block 7 is filled out, an acknowledgement will be mailed to you within 30 days to let you know that your comments were received and are being considered.

NOTE: This form may not be used to request copies of documents, nor to request waivers, deviations, or clarification of specification requirements on current contracts. Comments submitted on this form do not constitute or imply authorization to waive any portion of the referenced document(s) or to amend contractual requirements.
