MILITARY STANDARD

CLASSIFICATION SYSTEM AND TESTS FOR SOLID ELASTOMERIC MATERIALS

MIL-STD-417A(MR) dated 8 February 1976 is inactive for new design and shall be no longer used except in the procurement of replenishment spares as necessary to maintain equipment in the field until obsoletion or wear out.

New designs should use American Society for Testing and Materials Standard D 2000, entitled "Elastomeric Materials for Automotive Applications."

(Copies of specifications, standards, drawings, and publications required by suppliers in connection with specific procurement functions should be obtained from the procuring activity or as directed by the contracting officer.)
