MIL-S-22805A
Amendment 2
21 January 1985
Superseding
Amendment 1
25 February 1980

MILITARY SPECIFICATION

SPRAY KIT, SELF PRESSURIZED

This amendment forms a part of military specification MIL-S-22805A dated 20 October 1969, and is approved for use by all Departments and Agencies of the Department of Defense.

PAGE 3

* 3.2 - Delete "The kit shall consist of 2 spray devices, 10 propellant cans, 4 product jars provided with lids and 20 dip tubes cut to proper length" and substitute "The kit shall consist of 6 spray devices, 10 propellant cans, 4 product jars provided with lids and 20 dip tubes cut to proper length."

PAGE 9

4.6.4 - Delete "The component parts of the spray device shall be assembled and disassembled 5 times" and substitute: "The component parts of the spray device shall be assembled and disassembled 25 times."

The margins of this amendment are marked with an asterisk to indicate where changes (additions, modifications, corrections, deletions) from the previous amendment were made. This was done as a convenience only and the Government assumes no liability whatsoever for any inaccuracies in these notations. Bidders and contractors are cautioned to evaluate the requirements of this document based on the entire content irrespective of the marginal notations and relationship to the last previous amendment.
