INTERIM FEDERAL SPECIFICATION SHEET

LAMP FLUORESCENT
TRADE NO. F90T12/D OR F90T17/D, PREHEAT, 90 WATT, T-12 OR T-17 BULB (60") DAYLIGHT, MOGUL BIPIN BASE

(DETAIL SPECIFICATION)

The complete requirements for Lamp, Fluorescent described herein shall consist of this document and latest issue of W-L-00116/GEN.

This Interim Federal Specification Sheet was developed by General Services Administration, Federal Supply Service, Mechanical and Electrical Division, Washington, DC 20406, based upon currently available technical information. It is recommended that Federal agencies use it in procurement and forward recommendations for changes to the preparing activity at the address shown above.

The General Services Administration has authorized the use of this Interim Federal Specification Sheet as a valid exception to W-00116A, dated June 23, 1964.

REQUIREMENTS:

TABLE I.

Lamp size		Base	Color	Required life (hours)	Minimum lumens	
Nominal watts	Bulb				at 100 hours	at 40% of life
90	T-12 T-17	Mogul Bipin	Day-light	9000	5200	4500

Dimensions: A deviation in dimension from ANSI C78.2 shall be considered a defect for the F90T12/D lamp. A deviation in dimension from ANSI C78.411 shall be considered a defect for the F90T17/D lamp.
