REQUIREMENTS

Configuration:

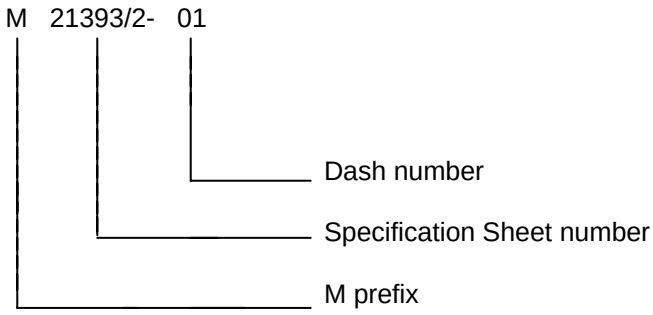

Microphone back assembly, including the push-button, switch, schematic, cordage and plug, are illustrated on figure 1.

Transmitter assembly shall consist of the microphone element, without a microphone amplifier. The microphone element shall be designed to be compatible with the end item application [Underwater Special Surveillance System, type AN/BSY-2(V)S].

Cordage shall consist of 4 (four) conductor cable, with shield. One end of the cordage shall be equipped with a plug, type U229, in accordance with MIL-DTL-55116/1 (see figure 2).

Part or Identifying Number (PIN): Consists of the letter “M” followed by the basic number of this specification sheet and a dash number.

Example:

Form Factor:

The microphone shall not weigh in excess of 7.5 ounces and shall have the dimensions shown on figure 1.

Amendment notations. The margins of this specification are marked with vertical lines to indicate modifications generated by this amendment. This was done as a convenience only and the Government assumes no liability whatsoever for any inaccuracies in these notations. Bidders and contractors are cautioned to evaluate the requirements of this document based on the entire content irrespective of the marginal notations.
