Int. Fed. Spec. GGG–I–00100(GSA–FSS)
December 5, 1963

FEDERAL SPECIFICATION

ICE SCRAPER AND CHIPPER, SIDEWALK

This specification was approved by the Commissioner, Federal Supply Service, General Services Administration, for the use of all Federal agencies.

1. SCOPE AND CLASSIFICATION

1.1 Scope. The sidewalk ice scraper and chipper covered by this specification is a long-handled tool for scraping, chopping, or removing ice or light snow from walkways.

1.1.1 *Federal specification coverage.* Federal specifications do not include all varieties of the commodity as indicated by the title of the specification, or which are commercially available, but are intended to cover only those generally used by the Federal Government.

1.2 Classification.

1.2.1 *Type.* The sidewalk ice scraper and chipper covered by this specification shall be of one type as hereinafter specified.

2. APPLICABLE SPECIFICATIONS AND STANDARDS

2.1 The following specifications and standards, of the issues in effect on date of invitation to bid or request for proposal, form a part of this specification:

Federal Specifications:

NN–H–81 — Handles, Ash, for Tools.

PPP–B–636 — Box, Fiberboard.

(Activities outside the Federal Government may obtain copies of Federal Specifications, Standards, and Handbooks as outlined under General Information in the Index of Federal Specifications and Standards and at the prices indicated in the Index. The Index, which includes cumulative monthly supplements as issued, is for sale on a subscription basis by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

(Single copies of this specification and other product specifications required by activities outside the Federal Government for bidding purposes are available without charge at the General Services Administration Regional Offices in Boston, New York, Washington, D.C., Atlanta, Chicago, Kansas City, Mo., Dallas, Denver, San Francisco, Los Angeles, and Seattle, Wash.

(Federal Government activities may obtain copies of Federal Specifications, Standards, and Handbooks and the Index of Federal Specifications and Standards from established distribution points in their agencies.)

Military Specifications:

MIL–H–15424 — Hand Tools; Packaging of.

Military Standards:

MIL–STD–105 — Sampling Procedures and Tables for Inspection by Attributes.

MIL–STD–129 — Marking for Shipment and Storage.

(Copies of Military Specifications and Standards required by contractors in connection with specific procurement functions should be obtained from the procuring activity or as directed by the contracting officer.)

3. REQUIREMENTS

3.1 Illustration. The illustration shown herein is descriptive and not restrictive, and is included for the convenience of requisitioning and purchasing officers and manufacturers, and is not intended to preclude the purchase of sidewalk ice scrapers and chippers which are otherwise in accordance with this specification.

3.2 Design. The scraper shall consist of a flat blade and a long, straight handle. It shall be of the dimensions specified herein, and shall be similar to figure 1.

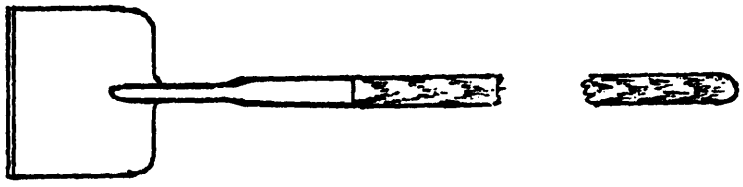

FIGURE 1.—Sidewalk scraper.

3.3 Blade. The blade shall be high-grade steel of uniform quality and free from hard spots. The socket for the handle shall be not less than 4 inches in depth. The socket and shank shall be forged integrally with the blade. The cutting edge of the blade shall be sharpened or beveled in accordance with good commercial practice.

3.3.1 *Blade dimensions.* The blade shall be not less than 6⅞ inches wide and not less than 5⅞ inches high. The blade thickness shall be not less than $\frac{3}{32}$ inch at any point measured above the sharpened or beveled cutting edge.

3.3.2 *Blade hardness.* The blade shall be properly hardened to a Rockwell C of not less than 25 nor more than 45.

3.3.3 *Finish.* The blade and socket shall be free from burrs, cracks, or other detrimental defects. All edges shall be smoothly finished in accordance with good commercial practice.

3.4 Overall length. The overall length of scraper shall be not less than 63 nor more than 65 inches.

3.5 Handle. The handle shall be of seasoned SA grade ash conforming to the requirements of NN–H–81. It shall be smoothly finished and covered with two durable coats of transparent lacquer, varnish, or wax, or one coat after surface treatment utilizing heat, such as flame-treating or charring. The coating shall be applied in a manner to permit visual inspection of the wood and prevent absorption of water.

3.6 Identification marking. The sidewalk scraper shall be marked in a plain and permanent manner with the manufacturer's name, or with a trademark of such known character that the source of manufacture may be readily determined.

3.7 Workmanship. Workmanship shall be first class. The sidewalk scrapers shall be free from rust, fins, burs, or other imperfections which may impair their appearance, durability, or serviceability.

4. SAMPLING, INSPECTION, AND TEST PROCEDURES

4.1 Responsibility for inspection. Unless otherwise specified in the contract or purchase order, the supplier is responsible for the performance of all inspection requirements as specified herein. Except as otherwise specified, the supplier may utilize his own facilities or any commercial laboratory acceptable to the Government. The Govern-
