INTERIM FEDERAL SPECIFICATION

SAW, SET, HAND

This amendment was developed by the Standardization Division, Federal Supply Service, General Services Administration, Washington, D. C., 20406, based upon currently available technical information. It is recommended that Federal agencies use it in procurement and forward recommendations for changes to the preparing activity at the address shown above.

The General Services Administration has authorized the use of this amendment as a valid exception to Interim Federal Specification GGG-S-0075a (GSA-FSS) dated January 4, 1966.

PAGE 2

Paragraph 3.7.3. Delete the second sentence and substitute:

"The anvil shall be adjustable, and the anvil or anvil adjustment shall be graduated and numbered. The minimum graduation range shall be from 4 thru 16 teeth per inch. The graduations to be numbered shall be not less than those for the 4, 6, 8, 10, 12, and 16 teeth per inch."

GSA DC 67-9033
