AMENDMENT

TO

INTERIM FEDERAL SPECIFICATION

TAP, THREAD CUTTING (HIGH SPEED STEEL,

GROUND THREAD, HAND AND SPARK PLUG)

This amendment was developed by the Standardization Division, Federal Supply Service, General Services Administration, Washington, DC 20406, based upon currently available technical information. The General Services Administration has authorized this amendment as part of Interim Federal Specification GGG-T-0070C(GSA-FSS), dated October 18, 1968.

PAGE 2

Paragraph 3.3: Delete and substitute:

"3.3 Finish. All thread surfaces, the flutes, chamfer, and spiral point angle (when applicable), and the shank diameter shall be ground smooth, and be free from burrs, nicks, wheel chatter marks, or other imperfections which may affect the accuracy or life of the tap."

PAGE 5

Add paragraph 3.11 as follows:

"3.11 Marking. Each tap shall be permanently marked with the manufacturer's name or registered trademark, and the applicable identification marking in accordance with B94.9."
