COMMERCIAL ITEM DESCRIPTION

BRUSH, CHASSIS AND RUNNING GEAR

The General Services Administration has authorized the use of this commercial item description by all federal agencies.

1. SCOPE

1.1 Scope. This purchase description covers brushes for cleaning vehicle parts using industrial solvents.

2. SALIENT CHARACTERISTICS

2.1 General. The brush shall be suitable for heavy duty scrubbing on vehicle parts in conjunction with grease solvents.

2.2 Block. The brush block shall be made of fine grain hardwood or plastic material suitable for use with industrial part cleaning solvents. The block shall have a head and a handle and shall be of one piece construction. There shall be a hanging hole located at the outer end of the handle, 1/4 inch (0.63 cm) minimum in diameter. The arrangement of the holes shall produce a uniformly dense working brush surface. The block form shall be similar to figure 1 and shall meet the dimensional requirements of table I.

2.3. Filler. The filler material shall be either oiled palmetto or polypropylene plastic of sufficient diameter and weight to provide the stiff scrubbing characteristics required for the cleaning purposes intended. The filler material shall fill the filler holes.

2.4 Figure 1. Figure 1 is provided to demonstrate the design intended and is not to scale, the dimensions specified by table I shall take precedence.

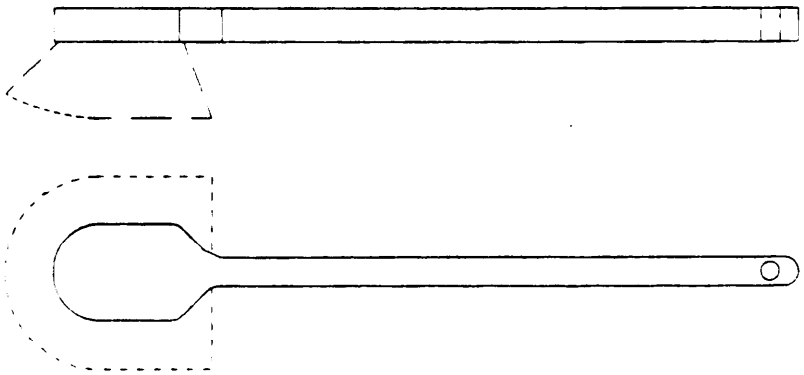

Figure 1

Beneficial comments, recommendations, additions, deletions, clarifications, etc., and any data which may improve this document should be sent to: General Services Administration, Engineering Group (7FXEE), 819 Taylor Street, Fort Worth, TX 76102.

DISTRIBUTION STATEMENT A: Approved for public release; distribution is unlimited.

FSC 7920

Table 1 - Dimensions

Block	
Length overall -	19-1/2 inches (49.53 cm) minimum
Length, brush part -	3 inches (7.62 cm) minimum
Width, handle -	3/4 inch (1.95 cm) minimum
Width, brush part -	2-3/4 inches (6.99 cm) minimum
Thickness -	7/8 inch (2.22 cm) minimum
Filler material	
Weight:	
Polypropylene -	2-3/8 oz. (67 g) minimum
Oiled palmetto -	3-1/2 oz. (99 g) minimum
Length clear of block -	2 inches (5.08 cm) minimum

2.5 Construction. The tufts shall be stapled into the brush block by a suitable corrosion resistant stapling wire of sufficient gauge and length for each tuft to pass a 10 pound (44 N) pull.

2.6 Workmanship. The brush shall be of good quality construction and shall not have any defects which affect appearance or may affect serviceability or durability.

2.8 Measurement system. The values stated in inch-pound units are to be regarded as the standard. The metric values stated in parentheses are for information purposes only.

2.9 Metric products. Products manufactured to metric dimensions will be considered on an equal basis with those manufactured using inch-pound units, providing they fall within the tolerances specified using conversion tables contained in the latest revision of FED-STD-376, and all other requirements of this document are met. If a product is manufactured to metric dimensions and those dimensions exceed the tolerances specified in the inch-pound units, a request should be made to the contract officer activity to determine if the product is acceptable.

2.10 Commercial item. The use of the term "commercial item description" in this document does not imply that any item or items offered are not required to conform with all requirements specified herein.

3. REGULATORY REQUIREMENTS

3.1 Regulatory requirements. The offerer/contractor is encouraged to use recovered materials to the maximum extent practicable, in accordance with paragraph 23.403 of the Federal Acquisition Regulation (FAR).

4. QUALITY ASSURANCE PROVISIONS

4.1 Contractor Certification. The contractor shall certify and maintain substantiating evidence that the product offered meets the salient characteristics of this commercial item description, and that the product conforms to the producer's own drawings, specifications, standards, and quality assurance practices. The government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

5. PREPARATION FOR DELIVERY

5.1 Packaging. Packaging, packing, and marking shall be as specified in the contract or order.

6. NOTES

6.1 National Stock Number (NSN): NSN 7920-00-255-7536 is the only known item to utilize this or the replaced document.

6.2 Referenced documents. The documents referenced in this commercial item description shall be the issues in effect on the date of issuance of the invitation for bids or request for proposal unless otherwise specified. These documents form a part of this commercial item description to the extent specified. In the event of a conflict between this commercial item description and a document referenced herein, this commercial item description shall take precedence.

6.2.1 Document sources. Copies of Federal Standards are available from the General Services Administration, Federal Supply Service Bureau, Specification Section (3FBP-W), 470 East L'Enfant Plaza SW, Suite 8100, Washington, DC 20407.
