3. SALIENT CHARACTERISTICS.

3.1 Construction.

3.1 1 General.

The cover and door assembly shall be designed to fit a standard 55 gallon metal drum. The assembly shall consist of a removable cover that can be securely attached to the drum. Shall have a door(s) that swing(s) inward independently which are hinged to the top door opening. The doors shall be designed to return to the completely closed position by spring action or any method chosen by the manufacturer. The word "PUSH" shall be embossed in the door, in letters 1 inch or more in height. The door or the door opening shall have attached door bumpers installed to reduce noise. The components shall be assembled using rivets, other hardware or welded at the manufacturers option.

All other design characteristics shall be at the option of the manufacturer unless specified herein or as required by the contract or purchase order.

3.2 Material The material used in the fabrication of the cover and door assembly shall be formed from uncoated 0.0255 to 0.325 inch cold rolled sheet or carbon steel. Coated materials may be used providing the base material thickness stated herein is maintained.

3.3 Finish. All surfaces of the cover and door assembly shall be finished or treated as stated in the contract or order The galvanized or zinc finishes shall be in accordance with ASTM A525, G60 minimum

The painted finishes shall be as specified in the contract or order. The finish type or method used is the option of the manufacturer.

3 4 Workmanship All cover and door assemblies shall be rigid, clean, and free from cracks, sharp fins or edges, and rust Finish shall be free from lumps, blisters, grit, uncoated areas, dross, black or acid spots, flaking, peeling and foreign material. All welds, brazing or soldering shall not have any missing, unfused, broken, burned through areas, and shall be free from splatter, flash, pits, flux and scale. All door(s)s shall swing freely and close properly without fouling the door opening on all sides. There shall be no defects that affect appearance, function or serviceability.

4. Regulatory Requirements. The offeror/contractor is encouraged to use recovered materials to the maximum extent practicable, in accordance with paragraphs 23.403 of the Federal Acquisition Regulation (FAR)

4.1 Metric Products Products manufactured to metric dimensions will be considered on a equal basis with those manufacturer using inch-pound units, provided they fall within the tolerances specified and all other requirements of this document are met. If a product is manufactured to metric dimensions and those dimensions exceed the tolerances specified in inch-pound units, a request should be made to the contracting officer to determine if the product is acceptable.

5 QUALITY ASSURANCE PROVISIONS

5.1 Contractor Certification. The contractor shall certify and maintain substantiating evidence that the product offered meets the salient characteristics of this Commercial Item Description, and that the product conforms to the producer's own drawings, specifications, standards, and quality assurance practices and is the same product offered for sale in the commercial market place. The government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

6 Packaging. The preservation packing, and marking shall be as specified in the contract or order.

7. NOTES

7 1 Part Identification Number (PIN). Waste receptacle covers conforming tc this commercial item description shall be identified by a part number configuration consisting of identification from a portion of the CID number, type, class, style and size. An example of the part number configuration is shown below. This part numbering system is intended for identification and cross indexing of the item within numbering procedure is for government purposes and does not constitute a requirement for the contractor

EXAMPLE	CID	TYPE	STYLE	CLASS	FINISH
7240-00-782-3005	AA675	II	B	1	B
7240-00-783-1044	AA675	I	C	2	A
7240-00-792-1435	AA675	I	A	1	C
