MILITARY SPECIFICATION

GENERATOR SET, STEAM TURBINE, 1500-KW, 450-VOLT, 60-CYCLE, A.C.

This amendment forms a part of Military Specification MIL-G-22665(SHIPS), 14 October 1960.

Page 1, paragraph 2.1: Under "SPECIFICATIONS MILITARY" add:

"MIL-Q-9858 - Quality Control System Requirements."

Page 9, paragraph 4.1: Delete and substitute:

"4.1 Responsibility for inspection. - Unless otherwise specified in the contract or purchase order, the supplier is responsible for the performance of all inspection requirements as specified herein. Except as otherwise specified, the supplier may utilize his own facilities or any commercial laboratory acceptable to the Government. The Government reserves the right to perform any of the inspections set forth in the specification where such inspections are deemed necessary to assure supplies and services conform to prescribed requirements."

"4.1.1 Quality control system. - The supplier shall provide and maintain a quality control system acceptable to the Government. The system of quality control shall be in accordance with MIL-Q-9858 and as specified in 4.1.1.1 and 4.1.1.2. The supplier is in no way relieved of the final responsibility to furnish generator sets meeting the requirements of this specification."

"4.1.1.1 Description of procedures. - Procedures shall be assembled in manual form and shall include a flow chart showing the development of the product through the manufacturing cycle. The procedures shall indicate organization and responsibility for control of quality.

"4.1.1.2 The measuring and testing device maintenance and calibration schedule shall be available to the Government."
