Check the source to verify that this is the current version before use.

*In requirement 1 add:	3. M23595/3-4 Gasket
*In requirement 2 change:	“gasket” to “gaskets”
*Requirement 4 change to read:	The screw mounting holes are to be constructed in such a manner that the amplifier shall not be damaged when the mounting screws are torqued to 3 in-lbs.

PAGE 3

*Add new note:	"6. PIN M23595/3-2 supersedes P/N M23595/3-1, and has been designed to eliminate EMI susceptibility which existed in P/N M23595/3-1."

Changes from previous issue. The margins of this amendment are marked with asterisks to indicate where changes from the previous issue were made. This was done as a convenience only and the Government assumes no liability whatsoever for any inaccuracies in these notations. Bidders and contractors are cautioned to evaluate the requirements of this document based on the entire content irrespective of the marginal notations and relationship to the last previous issue.
