MILITARY SPECIFICATION

GAGE, PRESSURE, DIAL INDICATING, MANIFOLD PRESSURE

This amendment forms a part of Military Specification MIL-C-5678C, 5 August 1964, and is mandatory for use by all Departments and Agencies of the Department of Defense.

Page 1, paragraph 2.1, under Military delete: "MIL-L-6880, MIL-P-7936, MIL-L-70327."

Page 1, paragraph 2.1, under Military add: "MIL-D-1000 - Drawing Engineering and associated list."

Page 2, paragraph 2.1, under STANDARDS, MILITARY add:

"MIL-STD-794	Parts and Equipment, Procedures for Packaging and Packing of
MIL-STD-838	Lubrication of Military Equipment."

Page 4, paragraph 3.8, replace MIL-D-70327 with MIL-D-1000.

Page 4, paragraph 3.9.4, replace MIL-L-6880 with MIL-STD-838.

Page 10, add the following paragraph: "4.8 Inspection and test. Tests of methods of preservation and packaging shall be accomplished in accordance with section 4 of MIL-P-116 to insure compliance with section 5 of this specification."

Page 10, delete paragraph 5.1, 5.1.1, 5.1.2, and 5.2 in their entirety and substitute the following:

5.1 Preservation and Packaging. Preservation and Packaging of gages shall be Level A, B or C as specified by the procuring activity.

5.1.1 Level A - Gages shall be preserved and packaged in Quality Unit Packs of one each in accordance with Method IC1 of MIL-P-116. Then package in a domestic type box conforming to PPP-B-636.

5.1.2 Level B - The requirements for this level shall be the same as for level A, above.

5.1.3 Level C - The requirements for this level shall be the same as for level A, above, except the preservation shall be Method III in lieu of IC1.

5.2 Packing - Packing of gages shall be Level A, B or C as specified by the procuring activity.

5.2.1 Level A - Gages shall be packed Level A for export shipment in accordance with the requirements stipulated for this level by MIL-STD-794.

5.2.2 Level B - Gages shall be packed Level B for stock in accordance with the requirements stipulated for this level by MIL-STD-794.

5.2.3 Level C - Gages shall be packed Level C for immediate use or installation within the Zone of Interior in accordance with the requirements stipulated for this level by MIL-STD-794.

Page 10, paragraph 6.3, delete paragraph 6.3 in its entirety and replace with the following:

"6.3 Qualification. With respect to products requiring qualification, awards will be made only for products which are at the time set for opening of bids, qualified for inclusion in the applicable Qualified Products List whether or not such products have actually been so listed by that date. The attention of the suppliers is added to this requirements, and manufacturers are urged to arrange to have the products that they propose to offer to the Federal Government tested for qualification in order that they may be eligible to be awarded contracts or orders for the products covered by this specification. The activity responsible for the Qualified Products List is Oklahoma City Air Materiel Area (MMEO), Tinker AFB, Oklahoma 73145, and information pertaining to qualification of products may be obtained from the activity."

6.4 Identification of international standardization agreements. Certain provisions (paragraphs 1.1.2 Classification, 2.3.10 Dial and Figure 1, 4.7.19 Mounting nuts, 4.7.20 Mounting Lugs) are subject to International Standardization Agreement ASCC Air Std. 10/3A and STANAG 3326. When amendment, revision or cancellation of this specification is proposed which will effect or violate the international agreement concerned, the preparing activity will take appropriate reconciliation action through international standardization channels, including Departmental Standardization Offices, if required.
