H-B-00531d(GSA-FSS)
AMENDMENT-1
November 20, 1967

AMENDMENT TO

INTERIM FEDERAL SPECIFICATION

BRUSH, SCRUB, DECK

This amendment was developed by the Standardization Division, Federal Supply Service, General Services Administration, Washington, D. C. 20406, based upon currently available technical information. It is recommended that Federal agencies use it in procurement and forward recommendations for changes to the preparing activity at the address shown above.

The General Services Administration has authorized the use of this amendment as a valid exception to Interim Federal Specification H-B-00531d(GSA-FSS), dated October 7, 1966.

PAGE 2

Paragraph 3.3.2, second sentence: Delete and substitute: "The wood prior to machining shall be thoroughly and uniformly dried to a moisture content not exceeding 12 percent when tested as specified in 4.4.3 (see 4.3.2.1)."

PAGE 4

Paragraph 4.3.2.1: Delete and substitute:

4.3.2.1 Moisture content of block. Test shall be performed on each lot of wood offered for inspection prior to machining for moisture content in accordance with MIL-W-6110 to determine compliance with 3.3.2 (see 4.4.3). The sample unit shall be one piece of cut wood. Two determinations shall be made on each sample unit and the results shall be the average of the two determinations. The inspection level shall be S-2 with an acceptable quality level (AQL) of 2.5 defects expressed in terms of defects per hundred units.
