INTERIM AMENDMENT

TO

FEDERAL SPECIFICATION

BRUSHES, ACID SWABBING

This amendment was developed by Standardization Division, Federal Supply Service, General Services Administration, Washington, D. C. 20406, based upon currently available technical information. It is recommended that Federal agencies use it in procurement and forward recommendations for changes to the preparing activity at the address shown above.

The General Services Administration has authorized the use of this interim amendment as a valid exception to Federal Specification H-B-643C, dated June 2, 1966.

PAGE 2

Paragraph 3.3.1, delete and substitute the following:

3.3.1 Filler material. The filler material shall be as specified hereinafter.

Paragraph 3.3.1.1, at end of paragraph add the following:

"The bristle or hair shall have no perceptible change in stiffness or evidence of artificial color when soaked in boiling water (212 F.) for not less than one hour as specified in 4.4.1. After removing the bristle or hair from the water there shall be no visual evidence of water discoloration."

PAGE 5

Paragraph 4.4.1, in the first, third, eighth, and eleventh lines, delete "filler material" and substitute "bristle or hair". At the end of paragraph, delete "3.3.1" and substitute "3.3.1.1".

PAGE 6

Paragraph 5.2.1, fifth and sixth lines, delete "style RSC, V3c or V3s of PPP-B-636." and substitute "PPP-B-636 class weather-resistant."

Paragraph 5.2.2, seventh and eighth lines, delete "V3c and V3s of PPP-B-636." and substitute "PPP-B-636 class weather-resistant."
