COMMERCIAL ITEM DESCRIPTION

RODENTICIDE, ANTICOAGULANT, PELLETS/BLOCKS and UNIVERSAL CONCENTRATE

The General Services Administration has authorized the use of this Commercial Item Description

ABSTRACT. This Commercial Item Description covers the following three types of rodenticide:

Type I. Rodenticide, bait anticoagulant - pellets
Type II. Rodenticide, anticoagulant - universal concentrate
Type III. Rodenticide, bait anticoagulant (bromadiolone supercaid) - pellets or blocks.

Intended use. Rodenticide is intended for use in the control of rats, mice, and other rodents. Type I is for general purpose applications.

SALIENT CHARACTERISTICS.

Composition. The composition of each type of rodenticide shall be as specified below:

Type I. Type I rodenticide shall be a bait anticoagulant rodenticide in pellet form containing one of the following:

2-Pivalyl-1,3-indandione	0.025%	or
Chlorophacinone	0.005%	or
Diphacinone	0.005%	or
Pindone	0.025%	or
Warfarin	0.025%	

Type II. Type II rodenticide shall be an anticoagulant rodenticide in a universal concentrate form containing water soluble salts of one of the following:

AMSC N/A FSC 6840

DISTRIBUTION STATEMENT A. Approved for public release; distribution is unlimited.

Check the source to verify that this is the current version before use.

2-Pivalyl-1,3-indandione	0.3%	or
2-isovaleryl-1,-3-indandione	0.5%	or
Chlorophacinone	0.05%	or
Diphacinone	0.05%	or
Pindone	0.3%	

Type III. Type III rodenticide shall be a bait anticoagulant (bromadiolone supercaid) rodenticide in pellets or block form containing one of the following:

Bromadiolone	0.005%	or
Brodifacom	0.005%	

Regulatory requirements. The offeror/contractor is encouraged to use recovered material in accordance with Public law 94-580 to maximum extent practicable.

Registration and labeling. The rodenticide shall be registered and labeled in compliance with the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended. This act, and regulations promulgated thereunder, is administered by the Environmental Protection Agency (EPA). The containers shall be labeled, with contents and directions for use, in accordance with the Code of Federal Regulations (CFR), 40 CFR 156-157.

QUALITY ASSURANCE

Certification. The contractor shall certify that the product offered meets the salient characteristics of this Commercial Item Description and conforms to the producer's own drawings, specifications, standards, and quality assurance practices, and is the same as the product offered for sale in the commercial marketplace. When specific quality assurance provisions are specified for any commercial characteristic the contractor shall furnish data resulting from inspection(s) conducted in accordance with the specific quality assurance provisions. The government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided under the provision of the contract.

PACKAGING

Packaging. Packaging, packing, and palletization shall be as specified in the contract.

Marking. Unit packs, shipping containers and unitized pallet loads shall be marked in accordance with MIL-STD-129 and the EPA Registration/Labeling requirements of 49 CFR 100-199.

NOTES

Ordering Data. Contracting officers and other procurement officials need to identify the title, number, and date of this document, and the type and quantity of rodenticide being ordered.

CID based part or identification number (PIN). The following CID based part identification numbering procedure shall be used to identify the items covered by this CID. The purpose of this procedure is to assist Government catelogers in developing correct equipment/material PINs. This procedure does not constitute a requirement for the contractor.

A55129 - 1 Example of PIN: A55129-1

- 1 — Type (1=I, 2=II, 3=III; see Abstract).
- A55129 — Basic CID identifier.

Metric Product. Products packaged to metric standard shall be considered on an equal basis with those using inch-pound units, provided all other requirements of this commercial item description are met. Equivalent metric units may be derived using the conversion data in FED-STD-376.

Referenced Documents. Copies of referenced Military and Federal specifications and standards are available from the following address. Copies of other referenced Government documents are available from the contracting officer.
