ADOPTION NOTICE

IEC15504-2 **SOFTWARE ENGINEERING-PROCESS ASSESSMENT PART 2, PERFORMING AN ASSESSMENT**, defines the basis for process assessment, was adopted on 17 November 2004 for use by the Department of Defense (DoD). Proposed changes by DoD activities must be submitted to the Deputy Director, Enterprise Development, the DoD Adopting Activity: OUSD(AT&L)/DS/SE, 3090 Defense Pentagon, Room 3D1075, Washington D. C. 20301-3090. Copies of this document may be purchased from http//:webstore.ansi.org or International Organization for Standardization, 25 West 43rd Street, New York, NY 10036, (212) 642.4900.

ISO/IEC 15504 provides a framework for process assessment and sets out the minimum requirements for performing an assessment in order to ensure consistency and repeatability of assessment ratings. Process assessment is applicable in the following circumstances:

- by or on behalf of an organization with the objective of understanding the state of its own processes for process improvement;

- by or on behalf of an organization with the objective of determining the capability of another organization's processes for a particular contract or class of contracts, or to determine the capability of its own processes for a particular requirement or class of requirements.

This informative part of the ISO/IEC 15504 provides guidance on how to utilize a conformant process assessment with a process improvement programme or with either type of process capability determination.
