WW-T-731C
CANCELLATION
November 1, 1973

FEDERAL SPECIFICATION

TUBES, STEEL AND OPEN HEARTH IRON,
SEAMLESS AND WELDED, BOILER USE

This cancellation was approved by the Commissioner, Federal Supply Service, General Services Administration.

Federal Specification WW-T-731C, dated April 4, 1956, is hereby canceled. ASTM A178, Electric-Resistance-Welded Carbon Steel Boiler Tubes and ASTM A192, Seamless Carbon Steel Boiler Tubes for High-Pressure Service may be used in lieu of WW-T-731C.
