DATA ITEM DESCRIPTION

Title: Task Group Instruction (TGI) **Approval Date: 20130612**
Number: DI-MGMT-81919 **Limitation: N/A**
AMSC Number: N9382 **GIDEP Applicable: N/A**
DTIC Applicable: N/A
Applicable Forms: N/A
Office of Primary Responsibility: SH/PMS 392

Use/Relationship: Task Group Instructions (TGIs) are used to provide work instruction for repair and maintenance of naval vessels.

This Data Item Description (DID) contains format and content preparation instructions for the data product generated to perform specific and discrete repair, maintenance or modernization as delineated in the contract.

Requirements:

1. Format. The TGI shall be in the Contractor's format.

2. Content. The TGI shall contain detailed directions necessary to perform contracted repair, maintenance or modernization functions.

2.1 The TGI shall also identify the following:

a. All replacement parts
b. Materials needed
c. Recommendations for the phase of work needed
d. Corrective actions needed
e. Testing requirements, if applicable

2.2 The TGI shall also identify any special equipment needed to perform tasks.

3. End of DI-MGMT-81919.
